1994
Review: pharmacological manipulation of docosahexaenoic-phospholipid biosynthesis in photoreceptor cells: implications in retinal degeneration. **Bazan N.G.**, Rodriguez de Turco E.B. *J Ocul Pharmacol.* 1994 Fall; 10(3):591-604. Review. PMID:7836869 [PubMed - indexed for MEDLINE].
Effect of antagonists of platelet-activating factor receptors on memory of inhibitory avoidance in rats. Jerusalinsky D., Fin C., Quillfeldt J.A., Ferreira M.B.C., Schmitz P.K., Da Silva R.C., Walz R., **Bazan N.G.**, Medina J.H., Izquierdo I. *Behavioral and Neural Biology*, July 1994, 62(1):1-3.
Membrane lipid degradation is related to interictal cortical activity in a series of seizures. Visioli F., Rodriguez de Turco E.B., Kreisman N.R., **Bazan N.G**. *Metab Brain Dis.* 1994 Jun; 9(2):161-70. PMID:8072464 [PubMed - indexed for MEDLINE].
Daily electroconvulsive shock treatment alters the inositol lipid system response in the rat hippocampus. Visioli F., Rodriguez de Turco E., **Bazan N.G**. *Neurochem Res.* 1994 Jun; 19(6):705-8. PMID:8065527 [PubMed - indexed for MEDLINE].
Platelet-activating factor and retinoic acid synergistically activate the inducible prostaglandin synthase gene. **Bazan N.G.**, Fletcher B.S., Herschman H.R., Mukherjee P.K. *Proc Natl Acad Sci U S A.* 1994 Jun 7; 91(12):5252-6. PMID:8202477 [PubMed - indexed for MEDLINE].
The effect of a free radical scavenger and platelet-activating factor antagonist on FFA accumulation in post-ischemic canine brain. Sun D., Kintner D., Fitzpatrick J.H., Emoto S.E., Braquet P.G., **Bazan N.G.**, Gilboe D.D. *Neurochem Res.* 1994 Apr; 19(4):525-8. PMID:8065507 [PubMed - indexed for MEDLINE].
Developmental maturation of hepatic n-3 polyunsaturated fatty acid metabolism: Supply of docosahexaenoic acid to retina and brain. Martin R.E., Rodriguez de Turco E.B., **Bazan N.G.** *The Journal of Nutritional Biochemistry*, March 1994, 5(3):151-160.
A platelet-activating factor antagonist reduces corneal allograft inflammation and neovascularization. Cohen R.A., Gebhardt B.M., **Bazan N.G**. *Curr Eye Res.* 1994 Feb;13(2):139-44. PMID:8194360 [PubMed - indexed for MEDLINE].
Docosahexaenoic acid is taken up by the inner segment of frog photoreceptors leading to an active synthesis of docosahexaenoyl-inositol lipids: similarities in metabolism in vivo and in vitro. Rodriguez de Turco E.B., Gordon W.C., **Bazan N.G**. *Curr Eye Res.* 1994 Jan;13(1):21-8. PMID:8156822 [PubMed - indexed for MEDLINE].
Differences in the acyl composition of the platelet-activating factor (PAF) precursor and other choline phosphoglycerides of the rabbit retinal rod outer segments and neural retina. Bazan HE, Hurst JS, **Bazan N.G**. *Curr Eye Res.* 1994 Jan;13(1):45-50. PMID:8156825 [PubMed - indexed for MEDLINE].
Platelet-activating factor is a messenger in the electroconvulsive shock-induced transcriptional activation of c-fos and zif-268 in hippocampus. Marcheselli V.L., **Bazan N.G**. *J Neurosci Res.* 1994 Jan;37(1):54-61. PMID:8145303 [PubMed - indexed for MEDLINE].

Platelet-activating factor as a potential retrograde messenger in CA1 hippocampal long-term potentiation. Kato K., Clark G.D., **Bazan N.G.**, Zorumski C.F. *Nature.* 1994 Jan 13;367(6459):175-9. PMID:8114914 [PubMed - indexed for MEDLINE].
Docosahexaenoic acid supply to the retina and its conservation in photoreceptor cells by active retinal pigment epithelium-mediated recycling. **Bazan N.G.**, Rodriguez de Turco E.B., Gordon W.C. *World Rev Nutr Diet.* 1994;75:120-3. Review. No abstract available. PMID:7871812 [PubMed - indexed for MEDLINE].
Bazan N.G. *Signals, messages and genes in cerebral ischemia: Novel sites for neuroprotection.* In: **Pharmacology of Cerebral Ischemia 1994**; Krieglstein J., Oberpichler-Schwenk H. (Eds.), Wissenschaftliche Verlagsgesellschaft mbH Stuttgart, pp. 3-15, 1994 (book).
Bazan N.G., Allan G. *Phospholipid degradation, second messengers and activation of cell signaling genes.* In: **Cell Signal Transduction, Second Messengers, and Protein Phosphorylation in Health and Disease**; Municio A.M. and Miras-Portugal M.T. (Eds.), Plenum Press, New York, pp. 95-100, 1994 (book).
The role of platelet-activating factor in the release of excitotoxic neurotransmitters. Clark G.D., Happel L.T., Zorumski C.F., **Bazan N.G.** *J Lipid Med* 1994; 10:95-97.
Platelet-activating factor is a synapse messenger and an intracellular modulator of gene expression. **Bazan N.G.** *Plenary Lecture at Fourth International Congress on PAF and Related Lipid Mediators*, Snowbird, Utah. *J Lipid Med* 10:83-86, 1994.
Modelo experimental para produção de descolamento de retina regmatogênico. Santos F.F., Nehemy M.B., **Bazan N.G.**, Peyman G.A. *Revista Brasileira de Oftalmologia* 53:7-10, 1994
1993
Coupling among energy failure, loss of ion homeostasis, and phospholipase A2 and C activation during ischemia. Katsura K., Rodriguez de Turco E.B., Folbergrová J., **Bazan N.G.**, Siesjö B.K. *J Neurochem.* 1993 Nov; 61(5):1677-84. PMID:8228987 [PubMed - indexed for MEDLINE].
Free fatty acid and diacylglycerol accumulation in the rat brain during recurrent seizures is related to cortical oxygenation. Visioli F., Rihn L.L., Rodriguez de Turco E.B., Kreisman N.R., **Bazan N.G**. *J Neurochem.* 1993 Nov; 61(5):1835-42. PMID:8228997 [PubMed - indexed for MEDLINE].
Decreased electroconvulsive shock-induced diacylglycerols and free fatty acid accumulation in the rat brain by Ginkgo biloba extract (EGb 761): selective effect in hippocampus as compared with cerebral cortex. Rodriguez de Turco E.B., Droy-Lefaix M.T., **Bazan N.G**. *J Neurochem.* 1993 Oct; 61(4):1438-44. PMID:8376997 [PubMed - indexed for MEDLINE].
Pathways for the uptake and conservation of docosahexaenoic acid in photoreceptors and synapses: biochemical and autoradiographic studies. **Bazan N.G.**, Rodriguez de Turco E.B., Gordon W.C. *Can J Physiol Pharmacol.* 1993 Sep; 71(9):690-8. Review. PMID:8313233 [PubMed - indexed for MEDLINE].
Platelet-activating factor induces collagenase expression in corneal epithelial cells. Bazan H.E., Tao Y., **Bazan N.G**. *Proc Natl Acad Sci U S A.* 1993 Sep 15;90(18):8678-82. PMID:8378347 [PubMed - indexed for

MEDLINE].
Visualization of [3H]docosahexaenoic acid trafficking through photoreceptors and retinal pigment epithelium by electron microscopic autoradiography. Gordon W.C., **Bazan N.G**. *Invest Ophthalmol Vis Sci.* 1993 Jul; 34(8):2402-11. PMID:8325748 [PubMed - indexed for MEDLINE].
EGb 761 inhibits stress-induced polydipsia in rats. Rodriguez de Turco E.B., Droy-Lefaix M.T., **Bazan N.G**. *Physiol Behav.* 1993 May; 53(5):1001-2. PMID:8511192 [PubMed - indexed for MEDLINE].
The activation of phospholipase A2 and release of arachidonic acid and other lipid mediators at the synapse: the role of platelet-activating factor. **Bazan N.G.**, Zorumski C.F., Clark G.D. *J Lipid Mediat.* 1993 Mar-Apr; 6(1-3):421-7. PMID:8395252 [PubMed - indexed for MEDLINE].
Electroconvulsive shock alters GABAA receptor subunit mRNAs: use of quantitative PCR methodology. Pratt J.S., Kang I., **Bazan N.G.**, Miller L.G. *Brain Res Bull.* 1993; 30(5-6):691-3. PMID:7681357 [PubMed - indexed for MEDLINE].
Role of phospholipase A2 and membrane-derived lipid second messengers in membrane function and transcriptional activation of genes: implications in cerebral ischemia and neuronal excitability. **Bazan N.G.**, Allan G., Rodriguez de Turco E.B. *Prog Brain Res.* 1993; 96:247-57. Review. No abstract available. PMID:8332745 [PubMed - indexed for MEDLINE].
Doucet J.P., **Bazan N.G.** *A neural primary genomic response to the lipid mediator platelet-activating factor.* In: **Phospholipids and Signal Transmission**; Massarelli R., Horrocks L.A., Kanfer J.N., Löffelholz R., (Eds). Springer-Verlag Berlin Heidelberg, Germany, Vol .70, pp. 411-426, 1993 (book).
Bazan N.G., Rodriguez de Turco E.B., Gordon W.C. *Supply, uptake, and retention of docosahexaenoic acid by the developing mature retina and brain.* In: **Lipids, Learning, and the Brain: Fats in Infant Formulas. Report of the 103rd Ross Conference on Pediatric Research**; Dobbing J. (Ed). Columbus, Ohio: Ross Laboratories, pp. 27-46, 1993 (book).
Bazan N.G., Rodriguez de Turco E.B., Gordon W.C., Strand V.C., Martin R.E. *Systemic alterations in docosahexaenoic acid metabolism in inherited retinal degenerations.* In: **Retinal Degenerations: Clinical and Laboratory Applications**; Hollyfield J.G., LaVail M.M., and Anderson R.E. (Eds.). Plenum Press, New York, 1993 (book).
Modulación de la respuesta de rechazo de aloinjerto de córnea por antagonista del factor de activación plaquetaria. Cohen R.A., Gebhardt B.M., **Bazan N.G.** *Arch Oftal De BS AS* 1993;68:175-183.
Bazan N.G., Doucet J.P. *Platelet-activating factor and intracellular signaling pathways that modulate gene expression.* In: **Platelet-Activating Factor Receptors: Signal Mechanisms and Molecular Biology**; Shukla S., (Ed.) CRC Press Inc., Boca Raton, Florida, pp 137-146, 1993 (book).
Bazan N.G., Martin R.E., Rodriguez de Turco E.B., Gordon W.C. *Alterations in the metabolism and supply of an essential fatty acid to photoreceptor cells in retinal degenerative diseases.* In: **Proceedings International Symposium Retinitis Pigmentosa**; Rinaldi E., (Ed.), Liviana Medicina pp. 115-130, 1993 (book).

The uptake, metabolism, and conservation of docosahexaenoic acid (22:6w-3) in brain and retina: Alterations in liver and/or retinal 22:6 metabolism during inherited progressive retinal degeneration. **Bazan N.G.**, Gordon W.C., Rodriguez de Turco E.B. *Amer Oil Chem Soc* pp. 107-115, 1993.
