2000
Alterations in lipid and calcium metabolism associated with seizure activity in the postischemic brain. Katsura K., Rodriguez de Turco E.B., Kristián T., Folbergrová J., **Bazan N.G.**, Siesjö B.K. *J Neurochem*. 2000 Dec; 75(6):2521-7. PMID:11080205 [PubMed - indexed for MEDLINE]
Modulation of early response gene expression by prostaglandins in cultured rat retinal pigment epithelium cells. Ershov A.V., Parkins N., Lukiw W.J., **Bazan N.G**. *Curr Eye Res.* 2000 Dec; 21(6):968-74. PMID:11262621 [PubMed - indexed for MEDLINE]
Neuroinflammatory signaling upregulation in Alzheimer's disease. Lukiw W.J., **Bazan N.G**. *Neurochem Res*. 2000 Oct; 25(9-10):1173-84. Review. PMID:11059791 [PubMed - indexed for MEDLINE]
Ischemia, N-methyl D-aspartic acid (NMDA) or interleukin-1β (IL-1β) rapidly and coordinately trigger the expression of presenilin-1 (PS1) and cyclooxygenase-2 (COX-2) in the gerbil hippocampus and in human neural progenitor cells in primary culture. **Bazan N.G.**, Marcheselli V.I., Colangelo V., Lukiw W.J. *Neurobiology of Aging*, May–June 2000, 21(Supp 1):249.
Photoreceptor phagocytosis selectively activates PPARgamma expression in retinal pigment epithelial cells. Ershov A.V., **Bazan N.G**. *J Neurosci Res.* 2000 May 1; 60(3):328-37. PMID:10797535 [PubMed - indexed for MEDLINE]
Cortical impact injury in rats promotes a rapid and sustained increase in polyunsaturated free fatty acids and diacylglycerols. Homayoun P., Parkins N.E., Soblosky J., Carey M.E., Rodriguez de Turco E.B., **Bazan N.G**. *Neurochem Res.* 2000 Feb; 25(2):269-76. PMID:10786712 [PubMed - indexed for MEDLINE]
Analysis of 1184 genes in Alzheimer CA1 hippocampus: Synaptic signaling and transcription factor deficits and upregulation of proinflammatory pathways. Lukiw W.J., Carver L.A., LeBlanc H.J., **Bazan N.G.** *Neurobiology of Aging*, May–June 2000, 21(Supp 1):48-49.
Potential of transcriptional coordination of nine genes associated with Alzheimer's disease. Lukiw W.J., Rogaez E.I., **Bazan N.G.** *Alzheimer's Report* 2000, 3:233-245.
1999
Platelet-activating factor inhibits ionotropic GABA receptor activity in cultured hippocampal neurons. Chen C., **Bazan N.G**. *Neuroreport.* 1999 Dec 16; 10(18):3831-5. PMID:10716218 [PubMed - indexed for MEDLINE]
Interleukin-1 beta activates expression of cyclooxygenase-2 and inducible nitric oxide synthase in primary hippocampal neuronal culture: platelet-activating factor as a preferential mediator of cyclooxygenase-2 expression. Serou M.J., DeCoster M.A., **Bazan N.G**. *J Neurosci Res.* 1999 Nov 15; 58(4):593-8. PMID:10533051 [PubMed - indexed for MEDLINE]
Induction of cyclooxygenase-2 gene expression in retinal pigment epithelium cells by photoreceptor rod outer segment phagocytosis and growth factors. Ershov A.V., **Bazan N.G**. *J Neurosci Res*. 1999 Oct

15; 58(2):254-61. PMID:10502281 [PubMed - indexed for MEDLINE]

Secretory phospholipase A2 potentiates glutamate-induced rat striatal neuronal cell death in vivo. Kolko M., Bruhn T., Christensen T., Lazdunski M., Lambeau G., **Bazan N.G.**, Diemer N.H. *Neurosci Lett.* 1999 Oct 29; 274(3):167-70. PMID:10548416 [PubMed - indexed for MEDLINE]

"Changing the Way the World Does Research" Halim N., (interview with **Dr. Bazan** and his group) *The Scientist*, Oct. 11, 1999, 13(20):1.

Selective retinal pigment epithelial cell lipid metabolism and remodeling conserves photoreceptor docosahexaenoic acid following phagocytosis. Rodriguez de Turco E.B., Parkins N., Ershov A.V., **Bazan N.G**. *J Neurosci Res.* 1999 Aug 15; 57(4):479-86. PMID:10440897 [PubMed - indexed for MEDLINE]

Neuroprotection by pigment epithelial-derived factor against glutamate toxicity in developing primary hippocampal neurons. DeCoster M.A., Schabelman E., Tombran-Tink J., **Bazan N.G**. *J Neurosci Res.* 1999 Jun 15; 56(6):604-10. PMID:10374815 [PubMed - indexed for MEDLINE]

The interleukin-1 type 2 receptor gene displays immediate early gene responsiveness in glucocorticoid-stimulated human epidermal keratinocytes. Lukiw W.J., Martinez J., Pelaez R.P., **Bazan N.G**. *J Biol Chem.* 1999 Mar 26; 274(13):8630-8. PMID:10085100 [PubMed - indexed for MEDLINE]

Glutamate receptor signaling interplay modulates stress-sensitive mitogen-activated protein kinases and neuronal cell death. Mukherjee P.K., DeCoster M.A., Campbell F.Z., Davis R.J., **Bazan N.G**. *J Biol Chem.* 1999 Mar 5; 274(10):6493-8. PMID:10037742 [PubMed - indexed for MEDLINE]

Lukiw W.J., **Bazan N.G.** *Aluminum impairs transcription from RNA and DNA templates.* In: **Proceedings of the Vth Conference of the International Society for Trace Element Research in Humans (ISTERH)**; September 26-30, 1998, Lyon, France; Bost M. and Gamon S. (Eds.), Smith-Gordon Company, Limited, London, pp. 185-190, 1999.

Bazan N.G., Serou M. *Second messengers, long-term potentiation, gene expression and epileptogenesis.* In: **Jasper's Basic Mechanisms of the Epilepsies, Third Edition: Advances in Neurology, Vol. 79**; Delgado-Escueta A.V., Watson W.A., Olsen R.W. and Porter R.J. (Eds.), Lippincott Williams & Wilkins, Philadephia, 1999; 79:659-64. Review. No abstract available.

Bazan N.G. *The inflammatory mediator platelet-activating factor and the inducible prostaglandin synthase (COX-2) gene in CNS diseases.* In: **Inflammatory Cells and Mediators in CNS Diseases**; Ruffolo *et al.* (Eds.), Harwood Academic Publishers, Amsterdam, The Netherlands, 1999 pp. 245-255.

Gordon W.C., Colangelo V., **Bazan N.G.** and Klatzo I. *Aspects of the maturation phenomenon observed by the TUNEL method.* In: **Maturation Phenomenon in Cerebral Ischemia III, Defensive Mechanisms vs. Apoptosis; Neuronal Recovery and Protection in Cerebral Infarction**; Ito U., Fieschi C., Orzi F., Kuroiwa T. and Klatzo I. (Eds.), Springer-Verlag Berlin Heidelberg 1999; pp. 15-23.

Bazan N.G. *Eicosanoids, platelet-activating factor and inflammation*. In: **Basic Neurochemistry: Molecular, Cellular and Medical Aspects, 6th Edition**; Siegel G.J. *et al.*, (Eds.), Chapter 35, Lippincott-Raven Publishers, Philadelphia1999, 731-741.
