1990
Preferential uptake and metabolism of docosahexaenoic acid in membrane phospholipids from rod and cone photoreceptor cells of human and monkey retinas. Rodriguez de Turco E.B., Gordon W.C., Peyman G.A., **Bazan N.G**. *J Neurosci Res.* 1990 Dec; 27(4):522-32. PMID:2150417 [PubMed - indexed for MEDLINE].
Rodriguez de Turco E.B., Gordon W.C., **Bazan N.G.** *Preferential uptake and metabolism of docosahexaenoic acid in membrane phospholipids from rod and cone photoreceptor cells of human and monkey retinas.* In: **J Neurosci Res- Annual Bound**, Special Topics Edition. Wiley-Liss, New York, 1990 (book).
Immunohistologic study of epiretinal membranes in proliferative vitreoretinopathy. Baudouin C., Fredj-Reygrobellet D., Gordon W.C., Baudouin F., Peyman G., Lapalus P., Gastaud P., **Bazan N.G**. *Am J Ophthalmol.* 1990 Dec 15; 110(6):593-8. PMID:1701071 [PubMed - indexed for MEDLINE].
Arachidonic acid cascade and platelet-activating factor in the network of eye inflammatory mediators: therapeutic implications in uveitis. **Bazan N.G.**, de Abreu M.T., Bazan H.E., Belfort R. Júnior. *Int Ophthalmol.* 1990 Oct; 14(5-6):335-44. Review. PMID:2123479 [PubMed - indexed for MEDLINE].
Neuron-specific protein F1GAP-43 shows substrate specificity for the beta subtype of protein kinase C. Sheu F.-S., Marais R.M., Parker P.J., **Bazan N.G.**, Routtenberg A.*Biochemical and Biophysical Research Communications*, 1990 Sep 28; 171(3):1236-43. PMID:2145833 [PubMed - indexed for MEDLINE].
Identification of prostaglandin E2 and leukotriene B4 in the synovial fluid of painful, dysfunctional temporomandibular joints. Quinn J.H., **Bazan N.G**. *J Oral Maxillofac Surg.* 1990 Sep; 48(9):968-71. PMID:2168477 [PubMed - indexed for MEDLINE].
Lipids in human lipofuscin-enriched subcellular fractions of two age populations. Comparison with rod outer segments and neural retina. Bazan H.E., **Bazan N.G.**, Feeney-Burns L., Berman E.R. *Invest Ophthalmol Vis Sci.* 1990 Aug; 31(8):1433-43. PMID:2387677 [PubMed - indexed for MEDLINE].
Quantitative analysis of fatty acids in phospholipids, diacylglycerols, free fatty acids, and other lipids Marcheselli V.L., **Bazan N.G.** *The Journal of Nutritional Biochemistry*, July 1990, 1(7):382-388.
Docosahexaenoic acid utilization during rod photoreceptor cell renewal. Gordon W.C., **Bazan N.G.** *J Neurosci.* 1990 Jul; 10(7):2190-202. PMID:2142959 [PubMed - indexed for MEDLINE].
Distinct platelet-activating factor binding sites in synaptic endings and in intracellular membranes of rat cerebral cortex. Marcheselli V.L., Rossowska M.J., Domingo M.T., Braquet P., **Bazan N.G**. *J Biol Chem.* 1990 Jun 5; 265(16):9140-5. PMID:2160958 [PubMed - indexed for MEDLINE].
Fos-jun and the primary genomic response in the nervous system. Possible physiological role and pathophysiological significance. Doucet J.P., Squinto S.P., **Bazan N.G**. *Mol Neurobiol.* 1990 Spring-Summer; 4(1-2):27-55. Review. No abstract available. PMID:2127531 [PubMed - indexed for MEDLINE].

[Immunohistologic study of the epiretinal membranes in proliferative diabetic retinopathy and retinal detachment with vitreo-retinal proliferation]. Baudouin C., Gastaud P., Gordon B., Lapalus P., **Bazan N.G.**, Righini M., Peyman G.A. *Ophtalmologie.* 1990 Jan-Feb; 4(1):53-5. French. PMID:2250942 [PubMed - indexed for MEDLINE].
Class II antigen expression in diabetic preretinal membranes. Baudouin C., Gordon W.C., Fredj-Reygrobellet D., Baudouin F., Peyman G., Gastaud P., **Bazan N.G**. *Am J Ophthalmol.* 1990 Jan 15; 109(1):70-4. PMID:1688686 [PubMed - indexed for MEDLINE].
Dietary omega-3 fatty acids and accumulation of docosahexaenoic acid in rod photoreceptor cells of the retina and at synapses. **Bazan N.G.**, Scott B.L. *Ups J Med Sci Suppl.* 1990; 48:97-107. PMID:2150242 [PubMed - indexed for MEDLINE].
Platelet-activating factor activates HIV promoter in transfected SH-SY5Y neuroblastoma cells and MOLT-4 T lymphocytes. Squinto S.P., Braquet P., Block A.L., **Bazan N.G**. *J Mol Neurosci.* 1990; 2(2):79-84. PMID:2078479 [PubMed - indexed for MEDLINE].
Gilboe D.D., Kintner D., Fitzpatrick J.H., Emoto S.E., Braquet P.G., **Bazan N.G.** *Treatment of post-ischemic brain with a free radical scavenger and a platelet-activating factor antagonist: Recovery of metabolism and function.* In: **Pharmacology of Cerebral Ischemia**; Krieglstein J., Oberpichler H. (Eds.), Wissenschaftliche Verlagsgesellschaft mbH Stuttgart, pp. 399-407, 1990 (book).
Bazan N.G. *Neuronal cell signal transduction and second messengers in cerebral ischemia.* In: **Pharmacology of Cerebral Ischemia, Proceedings of the Third International Symposium on Pharmacology of Cerebral Ischemia**; Krieglstein J., Oberpichler H., (Eds.), Wissenschaftliche Verlagsgesellschaft, Stuttgart (FRG) pp. 391-398, 1990 (book).
Bazan N.G. *Lipoxygenation of arachidonic acid (AA) in retina.* In: **Proceedings of the 17th Collegium Internationale Neuro-Psychopharmacologicum Congress. Clinical Neuropharmacology**, 13:651-652, Raven Press, New York, 1990 (book).
Bazan N.G., Bazan H.E.P. *Lipid mediators in uveitis and ocular inflammation.* In: **Séminaires Ophthalmologiques d'IPSEN t.2, Physiologie, pathologie et génétique oculaires**; Christen Y., Doly M., Droy-Lefaix M.T. (Eds.), Springer, Verlag pp 53-61, 1990 (book).
Baudouin C., Fredj-Reygrobellet D., Gordon W.C., Baudouin F., Peyman G., Lapalus P., Gastaud P., **Bazan N.G.** *Immunohistological study of epiretinal membranes in proliferative vitreoretinopathy.* *Am J Ophth* 110:593-598, 1990 (book).
Bazan N.G. *Involvement of arachidonic acid and platelet-activating factor in the response of the nervous system to ischemia and convulsions.* In: **New Trends in Lipid Mediators Research. In: Lipid Mediators in Ischemic Brain Damage and Experimental Epilepsy, Vol 4**; **Bazan N.G.**, (Ed.) S Karger AG, Switzerland, pp. 241-252, 1990 (book).
Bazan N.G. and Bazan H.E.P: *Ocular responses to inflammation and the triggering of wound healing: Lipid mediators, proto-oncogenes, gene expression and neuro-modulation.* In: **New Trends in Lipid Mediators Research. Lipid Mediators in Eye Inflammation, Vol 5**; **Bazan N.G.** (Ed.), Karger, Basel, Switzerland, pp. 168-180, 1990 (book).

Bazan N.G. *Lipid Mediators in Eye Inflammation.* In: **New Trends in Lipid Mediators Research, Vol 5**; **Bazan N.G.** (Ed.), S Karger AG, Basel, Switzerland, 192 pages, 12 chapters, 1990 (book).
Bazan N.G. *Lipid Mediators in Ischemic Brain Damage and Experimental Epilepsy.* In: **New Trends in Lipid Mediators Research, Vol 4**; **Bazan N.G.**, (Ed.),S Karger AG, Basel, Switzerland, 262 pages, 13 chapters, 1990 (book).
Bazan N.G. *Supply of n-3 polyunsaturated fatty acids and their significance in the central nervous system.* In: **Nutrition and the Brain, Vol 8**; Wurtman R.J., and Wurtman J.J., (Eds.), Raven Press Ltd, New York, pp. 1-24, 1990 (book).
1989
Platelet-activating factor stimulates a fos/jun/AP-1 transcriptional signaling system in human neuroblastoma cells. Squinto S.P., Block A.L., Braquet P., **Bazan N.G**. *J Neurosci Res.* 1989 Dec; 24(4):558-66. PMID:2513416 [PubMed - indexed for MEDLINE].
Reversal of the epinephrine stimulation of Cl^- transport in bullfrog cornea by phorbol esters Reinach P.S., Thurman C., Bazan H.E.P., **Bazan N.G.** *Experimental Eye Research*, November 1989, 49(5):739-749.
Endothelial cell damage in human and rabbit corneas stored in K-Sol without antioxidants. Reddy T.S., Varnell E.D., Beuerman R.W., **Bazan N.G.**, Kaufman H.E. *Br J Ophthalmol.* 1989 Oct; 73(10):803-8. PMID:2510817 [PubMed - indexed for MEDLINE].
Increased levels of leukotriene C4 in retinal pigment epithelium are correlated with early events in photoreceptor shedding in Xenopus laevis. Birkle D.L., Rossowska M., Woodland J., **Bazan N.G**. *Curr Eye Res.* 1989 Jun; 8(6):557-61. PMID:2501069 [PubMed - indexed for MEDLINE].
Histamine stimulation of inositol phosphate metabolism in cultured human non-pigmented ciliary epithelial cells. Crook R.B., **Bazan N.G.**, Alvarado J.A., Polansky J.R. *Curr Eye Res.* 1989 Apr; 8(4):415-22. PMID:2541973 [PubMed - indexed for MEDLINE].
Membrane docosahexaenoate is supplied to the developing brain and retina by the liver. Scott B.L., **Bazan N.G**. *Proc Natl Acad Sci U S A.* 1989 Apr; 86(8):2903-7. PMID:2523075 [PubMed - indexed for MEDLINE]
Light exposure stimulates arachidonic acid metabolism in intact rat retina and isolated rod outer segments. Birkle D.L., **Bazan N.G**. *Neurochem Res.* 1989 Feb;14(2):185-90. PMID:2725818 [PubMed - indexed for MEDLINE].
The identification of a new biochemical alteration early in the differentiation of visual cells in inherited retinal degeneration. **Bazan N.G**. *Prog Clin Biol Res.* 1989; 314:191-215. Review. No abstract available. PMID:2692027 [PubMed - indexed for MEDLINE].
The role of platelet-activating factor in cerebral ischemia and related disorders. Braquet P., Spinnewyn B., Demerle C., Hosford D., Marcheselli V., Rossowska M., **Bazan N.G**. *Ann N Y Acad Sci.* 1989; 559:296-312. Review. No abstract available. PMID:2672941 [PubMed - indexed for MEDLINE].

Arachidonic acid in the modulation of excitable membrane function and at the onset of brain damage. **Bazan N.G**. *Ann N Y Acad Sci.* 1989; 559:1-16. Review. No abstract available. PMID:2672938 [PubMed - indexed for MEDLINE].
Arachidonic acid metabolism and cerebral blood flow in the normal, ischemic, and reperfused gerbil brain. Inhibition of ischemia-reperfusion-induced cerebral injury by a platelet-activating factor antagonist (BN 52021). Panetta T., Marcheselli V.L., Braquet P., **Bazan N.G**. *Ann N Y Acad Sci.* 1989; 559:340-51. PMID:2774404 [PubMed - indexed for MEDLINE].
Metabolism of arachidonic acid in the retina and retinal pigment epithelium: biological effects of oxygenated metabolites of arachidonic acid. **Bazan N.G**. *Prog Clin Biol Res.* 1989; 312:15-37. Review. PMID:2508122 [PubMed - indexed for MEDLINE].
The metabolism of omega-3 polyunsaturated fatty acids in the eye: the possible role of docosahexaenoic acid and docosanoids in retinal physiology and ocular pathology. **Bazan N.G**. *Prog Clin Biol Res.* 1989;312:95-112. Review. PMID:2529559 [PubMed - indexed for MEDLINE].
Braquet P., Hosford D., Spinnewyn B., Dunerger D., **Bazan N.G.**, Pirotzky E. *The therapeutic potential of ginkgolides and other PAF antagonist in cerebral ischemia.* In: **Platelet-Activating Factor and Diseases**; Saito K., Hanahan D.J., (Eds.), International Medical Publishers, Tokyo, Japan, pp. 85-102, 1989 (book).
Estudo dos leucotrienos no humor aquoso e soro de pacientes portadores de uveítes e controles. Análise de 93 casos. de Abreu M.T., **Bazan N.G.**, Bazan H.E.P., Guidugli T., Belfort Jr. R. *Arquivos Brasileiros de Oftalmologia*; 52(4):97-101, 1989.
