The LSU Department of Medicine Weekly Communication

Dr. Matthew Lammi (Pulmonary/Critical Care) was recently awarded the **Faculty Assembly Outstanding Mentor Award** by the Faculty Assembly of LSUHSC-SOM. This award is to honor individual faculty members for helping build a supportive academic environment, providing a vital resource for student and faculty growth and success, and enhancing excellence in the LSUHSC-SOM. Dr. Lammi has a tremendous reputation for the quality and quantity of his mentorship across the institution and we are so pleased he was honored in this way. The award was announced at the recent school-wide faculty meeting.

Dr. Rebecca Lillis (Infectious Diseases) recently published in the Journal of Clinical Microbiology on an evaluation of a new molecular test.

In a lovely example of cross-discipline collaboration, Dr. Leandre Millet (IM Resident), Dr. Zee Ali (Cardiology), and Dr. Rajesh Mohandas (Nephrology) recently wrote and published an editorial on “Practice patterns and clinical outcomes of severe coronary artery disease in dialysis patients” for the *International Journal of Cardiology*.

Dr. Terrence Park (ID Fellow) and Dr. Victoria Burke (Infectious Diseases) recently published a case report on *Histoplasma* Tympanomastoiditis which was published in the journal, *ID Cases*.

Dr. Meredith Clement and Dr. Lauren Richey (Infectious Diseases) recently gave an educational podcast through eHIV Review on “Emerging HIV Therapies and Potential Clinical Uses.” The podcast is available at: <https://elit.dkbmed.com/issues/162>
 Congratulations, Drs. Clement and Richey!

Dr. Sanjay Kamboj (Allergy & Immunology) was recently interviewed on Fox 8 Live about sinus related problems including allergies and infections. His LSU insignia was proudly displayed as was his extensive knowledge on the subject.
 Great job, Dr. Kamboj!

Patient Shout out to Dr. Marc Raj and Dr. Ryan Wolfe!

We received an email from a patient who commented on the outstanding care provided to her by Dr. Marc Raj (PM&R) and Dr. Ryan Wolfe (PM&R Resident). She commented on not having to wait for the doctor, on the thoroughness of the exam, and the clarity of the physician explanations. She ended by noting “that was one of my best doctors’ visits ever”.
