A Guide to

BEHAVIORAL HEALTH RESOURCES IN THE GREATER NEW ORLEANS AREA

The City of New Orleans
Mitchell J. Landrieu, Mayor
Dr. Karen DeSalvo, Health Commissioner
This guide provides an updated, comprehensive inventory of all behavioral health resources, including important programs, clinics offered by area providers and organizations from the public and private sector. We have also included resources to assist with access to these services such as information on public funding options, websites with more information and housing and supportive services throughout New Orleans.

This version of the guide includes two important additions. The first is a one-page guide clarifying the process and coverage options on the marketplace of newly available healthcare plans for individuals under the Affordable Care Act.

The second is an informational sheet explaining the resources available through the Coordinated System of Care (CSoC) and how to connect to those services. Both of these additions are significant in increasing access to vital services as well as improving the quality of those services.

To develop this guide, the City worked in collaboration with the Substance Abuse and Mental Health Services Administration (SAMHSA) and President Obama’s Strong Cities, Strong Communities (SC2) Initiative. We are thankful for their technical guidance and dedication to improving the health and lives of our residents. We were also aided by our local community partners who helped ensure that the guide was accurate and complete.

As a city, we can improve the health of our population, and our aim is to ensure delivery of affordable, quality healthcare services for all residents. We invite you to use this valuable information to help enhance your health knowledge of available behavioral health resources and make informed choices about care for you and your loved ones.

Sincerely,

DR. KAREN BOLLINGER DESALVO
Health Commissioner, City of New Orleans
