

What's New in Gene Therapy??

Gene Therapy Program researcher Robert Kutner and graduate student David Ricks collaborated with ACRES to learn whether a gene could be harmlessly introduced into the feline's genetic sequence. [See October 20, 2008 Times- Picayune article.](#)

[Gene Therapy's "Glowing Cat" featured on the "Today" show](#) -October 23, 2008 press release
