

Faculty Awards

The Department of Genetics congratulates Drs. Paula Gregory, Andrew Hollenbach and Fern Tsien on being recipients of the 2011 LSU School of Medicine Alumni Excellence Awards. The awards for Excellence in Teaching and Service to the School are to recognize and honor individuals with the School of Medicine who excel at their work and without whom it would be a lesser place.

Dr. Udai Pandey has been selected by the School of Medicine Faculty Assembly to receive a Faculty Award for 2012. The award was presented at the General Faculty meeting, Wednesday, May 23, 2012.

Excellence in Teaching

Each year the Aesculapian Society at the LSUHSC School of Medicine in New Orleans asks the medical students to nominate faculty on the basis of leadership, quality of instruction, approachability, and overall excellence in teaching. We are proud to announce that Dr. Paula Gregory was nominated for this award and Dr. Wayne Vedeckis, Interim Department Head won the Aesculapian Excellence in Teaching Award for the spring freshmen and medical school courses.

The Aesculapian Society's objective is "to promote amicable interchange of opinion between the student body and the faculty, with a view to the constant improvement of educational, medical, and scientific standards." At the end of each school year, the student body nominates both basic science and clinical faculty for the Aesculapian "Excellence in Teaching Award."

As always, an outstanding job by our faculty!

Congratulations!!
