Biographical Sketch:

Trained locally at LSU School of Medicine for medical school and OBGYN residency. Currently the Associate Residency Program Director, Co-Chair of the Resident Education Committee, and Director of OB Simulations.

My current interests include development of innovative resident curriculum, ambulatory teaching, and obstetric simulations for training.

I have recently become interested in quality improvement initiatives in residency education and I am currently working on a QI initiative as part of my participation in the APGO Scholars and Leaders Program. This is a 15-month career development program for academic faculty in OBGYN.
