Biographical Sketch:

I am an Assistant Professor in the Department of Pediatrics, Division of Neonatology. I completed my residency and fellowship training with LSUHSC-NO and became interested in simulation-based learning post-Katrina. I helped develop a neonatal resuscitation simulation training program for the pediatric residents and am currently involving staff nurses at Touro Infirmary. In addition, I am involved with point-of-care training for transport nurses and respiratory therapists.

Educational Domains Represented in Academy Portfolio

- Teaching
- Curriculum Development, Instructional Design, and/or Assessment of Student Learning
- Educational Research

Teaching/Education Expertise

Simulation-based learning
