

Special Seminar

The Electrical Function of Dendritic Spines

Jeffrey Charles Magee, Ph.D.

Group Leader,
Janelia Farm Research Campus
Howard Hughes Medical Institute
Ashburn, VA

The background of the bottom half of the poster features three vertical panels of microscopy images. The left panel shows a dense network of red neurons on a green background. The middle panel shows a single neuron with a bright white spot at its soma, set against a dark blue background. The right panel shows a neuron with a red soma and dendrites, surrounded by several white circular spots on a green background. A yellow scale bar labeled '20 μm' is visible in the top right corner of the right panel.
