

Touro Infirmary

Located just a few miles from Children's Hospital, pediatric residents rotate at Touro Infirmary for the Newborn Nursery and NICU to gain experience in the care, delivery and resuscitation of the newborn. Children's Hospital parent corporation, Louisiana Children's Medical Center (LCMC), is the common parent corporation that governs both Touro and Children's Hospital. Founded in 1852, Touro Infirmary is New Orleans' only community based, not-for-profit, faith-based hospital.

For more than 150 years, Touro has been in the vanguard of medical excellence. Tens of thousands of babies have been born at Touro, and Touro has treated more than a million people. Touro's modern facilities utilize the latest technology.
