Rotation: Continuity Clinic (First Year)

Supervisors: Drs. Gunn, Happel, Mason, Taylor

Locations: LSU Clinics- St Charles (KH, ML), Ochsner Main Campus (DT), Ochsner Kenner (CM, SJ)

Orientation: With supervising attending physician at beginning of experience

Goal: To develop fundamental skills in outpatient consultative pulmonary medicine

Objectives:

1. To learn to perform an extensive pulmonary consultation (history, physical, assessment, plan)
2. To learn the natural history of pulmonary diseases and the appropriate diagnostic testing.

ACGME Competencies: patient care / medical knowledge / professionalism

Level Specific Expectations: 1st year fellows work 1:1 with supervising faculty, who retain primary responsibility for patient care and delegate increasing responsibility to the fellow during the clinic year.
LSU Pulmonary / Critical Care Fellowship 2015-2016

Rotation:  Continuity Clinic (Second and Third Year)

Supervisors:  Ochsner and LSU Key Clinical Faculty

Locations:  Ochsner Main Campus, University Medical Center

Orientation:  With supervising attending physician at beginning of experience

Goal:  To develop advanced skills and independence in outpatient consultative pulmonary medicine

Objectives:

1.  To master an extensive pulmonary consultation (history, physical, assessment, plan)
2.  To achieve independence in management of pulmonary diseases in the outpatient setting.

ACGME Competencies:  patient care / medical knowledge / professionalism

Level Specific Expectations:

- 2nd and 3rd year fellows work 3:1 with supervising faculty.
- The fellow is expected to assume full responsibility for follow-up and medical decision making for any patient they evaluate in the continuity clinic, with input from an attending physician for high complexity care.
- Fellows assigned to the same continuity clinic will function as a practice group, and provide coverage for each other when necessary.
