

OTORHINOLARYNGOLOGY AND BIOCMMUNICATION

Course Name and Number: Clinical Clerkship (Our Lady of the Lake Regional medical Center (OLOLRMC), Baton Rouge, LA; Children's Hospital, New Orleans, LA) OTOR 420a

Faculty:

Dr. Daniel Nuss (OLOLRMC)
Dr. Anna Pou (OLOLRMC)
Dr. Laura Hetzler (OLOLRMC)
Dr. Andrew McWhorter (OLOLRMC)
Dr. Moises Arriaga (OLOLRMC)
Dr. Kevin McLaughlin (OLOLRMC)
Dr. Sohit Kanotra (Children's Hospital)
Dr. Michael Dunham (Children's Hospital)
Dr. Jairo Torres (Children's Hospital)
Dr. Phillip Allen (OLOLRMC)

Duration: 4 weeks (3 weeks at OLOLRMC and 1 week at Children's Hospital)

Availability: All blocks, all year

Number of Students: One visiting student per 4 week block

Objectives:

The medical students will be rotating at OLOLRMC in Baton Rouge and at Children's Hospital in New Orleans. A four-week course offering clinical experience in all areas of otorhinolaryngology is offered. Experience will cover the diagnosis and treatment of head and neck and skull base tumors and diseases, otologic diseases, advanced sinus disease, sleep medicine, voice and swallowing disorders and pediatric diseases. The student will also have the opportunity to work with speech and language pathologists in the care of our patients.

Means of Interpretation:

Activities will be similar to those of an intern. The student will participate in in-patient and out-patient care and will assist in operative otorhinolaryngology. Self-instructional material program and grand rounds presentations of cases are also expected.

Method of Evaluation:

There is no formal written test. Student's evaluation will be based entirely upon his/her work performance and level of application during his/her clinical rotation period. The Department of Surgery evaluation form will be completed by otorhinolaryngology residents and faculty at the end of the rotation.

Please contact Andrelle R. Causey or Deanna Loerwald with any questions at 504-568-4785.
