Education and Training

**Lugansk State Medical University, Lugansk, Ukraine
Residency**

1992 - 1994

During my residency training in Internal Medicine and Cardiology I performed my clinical and non-clinical duties that included supervision of nurses and younger residents. At the second year of residency, I served as a chief resident.

**Lugansk State Medical University, Lugansk, Ukraine
Medical Doctor Degree**

1984 - 1992

Studying at Lugansk State Medical University, I participated in research project of Surgical Anatomy, Radiology and Pathophysiology Research societies. I was the primary investigator and project leader in studying liver pathology. This project resulted in creating an educational video on macroscopic and microscopic changes in the liver at different stages of liver failure.

Work Experience

**Immigration to the U.S.A. -- Studying in ESL program
Bellingham Technical College, Bellingham, WA**

2004 – 2006

**Manager
European Touch Inc., Ferndale, WA**

2006 – 2007

**Chief of Cardiology Department
Novopskov Regional Hospital, Novopskov, Ukraine**

1999 – 2004

Working as a Chairman of Cardiology Department, I performed my clinical and non-clinical duties that included supervision of attending physicians, nurses and residents as well as organizing educational activities among the residents of our area. I have introduced and implemented a computerized patient record system in the department. Later, this database model has been adopted by our hospital. I lectured medical students at Lugansk State Medical University and Donetsk State Medical University on cardiology as a visiting professor.

**Cardiologist M.D.
Novopskov Regional Hospital, Novopskov, Ukraine**

1994 – 1999

Working as an attending physician at the Department of Cardiology, I performed my clinical and non-clinical duties that included supervision nurses and residents. I also lead a research study on effect of Chernobil disaster on lipid profile of population in our area.

Skills

My professional skills include diagnosis and management of patients with different cardiovascular pathologies and performing abdominal ultrasound studies, gastroscopic and bronchoscopic exams etc. I have extensive computer skills that include working with three major computer platforms: Windows XP, Macintosh OS X and several flavors of Linux. I have excellent interpersonal communication and leadership skills. I am a quick learner and a very motivated person who enjoys working on team projects.

Visa Status and Licensure

I am presently a United States permanent resident and Green Card holder (expiration: 05-17-2016). I have not taken USMLE exams yet but I am preparing for them.
