Dr. Mei-Chin Hsieh
Associate Professor

Education

China Medical University, Taichung, Taiwan	BS	1987	Medical Technology
Tulane University, New Orleans, LA, USA	MSPH	1998	Biostatistics
Tulane University, New Orleans, LA, USA	PhD	2016	Biostatistics

Dr. Mei-Chin Hsieh is an associate professor of research with the epidemiology program and assistant director of the Louisiana Tumor Registry (LTR) at the LSU Health New Orleans School of Public Health.

Dr. Hsieh earned her Master of Science in Public Health and holds a doctorate in biostatistics from the Tulane University School of Public Health and Tropical Medicine. Dr. Hsieh has over 20 years' experience in cancer surveillance as well as cancer research. Her research is focused on exploring health disparities in cancer risk, treatment received, and survival outcome.

Dr. Hsieh currently serves as co-principal investigator (Co-PI) for both the National Cancer Institute's (NCI's) Surveillance Epidemiology and End Results (SEER) program and the Centers for Disease Control and Prevention's (CDC's) National Program of Cancer Registries (NPCR) in Louisiana. She also serves as the principal investigator for the CDC funded CIN3 project as well as the LSUHSC site PI for several NIH/NCI funded projects including "Disparities and Cancer Epidemiology – Colorectal Cancer (DANCE-CRC)", "Cancer Treatment Disparities in the HIV Population - Exploring the Impact of HIV on Physician and Patient Decision-Making," and "Natural Language Processing Platform for Cancer Surveillance."

Dr. Hsieh's current research interests focus on race, social determinants, and cancer treatment status for colorectal, breast, lung, and pancreatic cancer outcomes.
