

NIH HISPANIC HERITAGE MONTH CELEBRATION

- 9:00 am **Teresa Chapa, Ph.D., MPA,**
President NIH-HEO
Opening Remarks
- 9:05 am **Cristina Beato, M.D.**
Acting Assistant Secretary of Health, DHHS
Welcome
- 9:25 am **Nora Volkow, M.D.**
Director, National Institute on Drug Abuse
Participation in the Science Enterprise
- 9:45 am **Dr. Ruben Adler, M.D., Ph.D.**
Arnall Patz Distinguished Professor of Ophthalmology
Johns Hopkins University
Making Stem Cells Do What We Want:
A Developmental Perspective
- 10:40 am **Dr. Nicolas G. Bazan, M.D., Ph.D.**
Director, Neuroscience Center, Louisiana State University
Synaptic Lipid Signaling in the Life and Death of Neurons
- 11:35 am **Dr. J. Silvio Gutkind, Ph.D.**
Chief, Oral and Pharyngeal Cancer Branch
National Institutes of Dental and Craniofacial Research
AIDS Malignancies and Signaling Networks:
A Case of Molecular Hijacking

Reception to follow at the
Clinical Center Visitor Information Center

Hispanic Contributions to Research in the United States

Novel Molecular Mechanisms of Cell Regulation

Monday, September 15, 2003
Lipsett Amphitheater
9:00 - 12:30 PM

NIH HISPANIC EMPLOYEE ORGANIZATION
Sign Language Interpretation will be provided.
For reasonable accommodation needs, please
contact the NIH Office of Equal Opportunity
and Diversity Management on (301) 496-6301.

Program.txt

Event: Hispanic Heritage Month Celebration (Part I)
Theme: Hispanic Contributions to Research in the United States -
Novel Molecular Mechanisms Regulating Cell Activity
Date: September 15, 2003
Time: 9:00 am - 12:30 pm
Location: Clinical Center. Lipsett Amphitheater

9:00 am
Opening Remarks
Teresa Chapa, Ph.D., MPA, President NIH-HEO

9:05 am
welcome
Cristina Beato, M.D., Acting Assistant Secretary of Health, DHHS

9:25 am
Participation in the Science Enterprise
Nora Volkow, M.D., Director, National Institute on Drug Abuse

9:45 am
"Making Stem Cells Do what we want: A Developmental Perspective"
Ruben Adler, M.D., Ph.D., Johns Hopkins University

10:40 am
"Synaptic Lipid Signaling in the Life and Death of Neurons"
Nicolas G. Bazan, M.D., Ph.D., Louisiana State University

11:35 am
"AIDS Malignancies and Signaling Networks: A Case of Molecular Hijacking"
Silvio Gutkind, Ph.D., Chief, Oral and Pharyngeal Cancer Branch, NIDCR, NIH

Reception to follow at the Clinical Center Visitor Information Center
