

- **PEDI 418 – Secondary Acting Internship – PICU**

- o The student will participate in the care of critically ill pediatric patients in a pediatric intensive care unit for 4 weeks with alternating weeks of day shifts and night shifts. Students are evaluated by analysis of their performance in patient care, medical documentation, acquisition of technical skills, and their application of clinical and basic science literature pertaining to pediatric critical care. Evaluations are performed by faculty, fellows, and house staff.
