Department of Pediatrics ~ LSUMC New Orleans

KUDOS CORNER

Congratulations to **Michael Ferris, PhD** who was promoted to Associate Professor of Pediatrics with tenure, and to **Ronald Wilcox, MD** who was promoted to Associate Professor of Clinical Medicine.

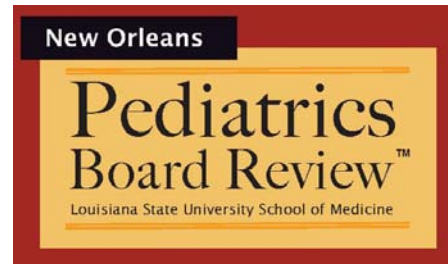

Eduardo Davila, MD received some great news recently. His R01 grant application titled "*TLR2 Engagement on Tumor-Specific T Cells: Mechanisms of Constimulation*" was funded by the National Institutes of Health. Specifically, this grant will be supported by the National Cancer Institute for 5 years. Research sponsored by this grant is focused on understanding how the stimulation of specific receptors (toll-like receptors) on tumor-specific T lymphocytes lead to improved destruction of established tumors. Members of his research team include Dr. Degui Geng, **Dr. Cori Morrison** (Hem/Onc Fellow), technicians Nicole Asproditis, Lily Zhen, and Angela Keen.

Rachel Dawkins, MD was recently elected to serve as a member of the executive committee of the Section on Young Physicians for the American Academy of Pediatrics. As the District VII Coordinator she will represent Louisiana, Mississippi, Texas, Arkansas and Oklahoma. She will serve a 3-year term.

Robin English, MD was invited to give a workshop entitled "Teaching Clinical Reasoning" at the University of Utah School of Medicine in Salt Lake City back in April. The audience consisted of selected faculty members in the "Master Scholars Program" at the University of Utah.

Paul Hyman, MD spoke to the Dysphagia Research Society in April about "Rumination" at their annual meeting here in New Orleans.

Tri Tran, MD, MPH has published "Race-Specific Trends in Infant Mortality: Contributions of Birth-Weight Distribution and Birth-Weight-Specific Mortality, Louisiana 1991-2002" in the July/August issue of the *Journal of the Louisiana State Medical Society*.

If you are nearing your recertification date by the American Board of Pediatrics and would like to brush up on pediatrics essentials for the Board Exam, you will be pleased to know that our faculty will receive a reduced rate of attendance to the **New Orleans Pediatrics Board Review™** (August 3-8, 2009).

Registration:

On or before July 6th - \$500

After July 6th - \$600

On-site - \$700

The registration fee includes tuition, course handouts, two evening sessions, Radiology CD-ROM, continental breakfast and refreshments during breaks. Presenters at the Board Review will, as always, receive tuition free of charge. The 2009 brochure and registration information is posted on the department's website:

www.medschool.lsuhschool.edu/pediatrics

All are invited to attend the Fowler Memorial Lecture on Wednesday, August 5 at 4:10pm at the Hotel Intercontinental. **John Udall, MD, PhD** will present "Crohn's Disease: The New Orleans Connection." Dr. Udall is fondly remembered as Chief of the Pediatric Gastroenterology Division for over 10 years. There is no fee to attend this lecture and all are welcome.
