

LSUHSC Physiology Fall 2018 Speaker	Seminar Title	Date
Yasuko Iwakiri, PhD Associate Professor Department of Internal Medicine Yale University School of Medicine	Neural Activation and Lymphangiogenesis in the Liver	August 23, 2018
Luis Natividad, PhD Postdoctoral Researcher Department of Neuroscience The Scripps Research Institute	Impaired Endocannabinoid Signaling in Stress and Addiction.	August 30, 2018
Robert Siggins, PhD Assistant Professor Department of Physiology LSUHSC New Orleans	aPCR: Methodologies, Pitfalls and Analyses	September 6, 2018
Nikolaos Frangogiannis, MD Edmond J. Safra/Republic National Bank of New York Chair in Cardiovascular Medicine Albert Einstein College of Medicine	The cell biological basis of cardiac fibrosis	September 13, 2018
Zhen Lin, M., PhD Assistant Professor of Pathology Department of Pathology Tulane University School of Medicine	Comprehensive Omics Analysis of Virus-Associated Human Cancers	September 20, 2018
Elizabeth Fucich, PhD Postdoctoral Fellow Department of Physiology LSUHSC New Orleans	Effects of Psychological Stress on Traumatic Brain Injury Outcomes in Rats	September 27, 2018
Frances Ernst, PsyD Clinical Psychology Postdoctoral Fellow Department of Psychiatry LSUHSC New Orleans	Coping with Stress and Burnout – A Review & Practice of Stress Reduction and Meditation Tools	October 4, 2018
Brad McConnell, PhD Department of Pharmacological and Pharmaceutical Sciences University of Houston College of Pharmacy, Texas Medical Center	Strategies to Improve Cardiac Function in heart disease	October 11, 2018
Sean Farris, PhD Postdoctoral Research Fellow Waggoner Center for Alcohol and Addiction Research The University of Texas at Austin	Hormone & Endocrine Glands	October 18, 2018
Chad Steele, PhD Professor and Chair Department of Microbiology and Immunology Tulane University	Immunoprotective vs. Immunopathogenic Responses During Severe Asthma with Fungal Sensitization	October 25, 2018
Bruce Bunnell, PhD Director of the Tulane Center for Stem Cell Research and Regenerative Medicine, Center for Gene Therapy Department of Pharmacology Tulane University Health Sciences Center	Development of Novel Therapeutics with Adipose- Derived Mesenchymal Stem Cells	November 1, 2018
George Kunos, MD, PhD, FAHA Scientific Director NIAAA	The CB1 receptor as a therapeutic target – there is life after death	November 8, 2018
Van Ninh PhD Candidate Department of Physiology LSUHSC NO	Cardiac effects of PAE	November 15, 2018
Frank Smart, MD Professor of Medicine Chief, Section of Cardiology LSUHSC New Orleans	Heart Failure with Preserved Ejection Fraction	November 29, 2018
Keisa Mathis, PhD Assistant Professor Department of Physiology and Anatomy University of North Texas Health Science Center	Neuroimmune Mechanisms Involved in Autoimmune- Induced Hypertension and Renal Injury	December 13, 2018
