

MED 300 Student Expectations

Basic Objectives from Goals

- I. History and Physical Exam
- II. Problem List: Based upon the information gathered from the patient, you must learn to define as clearly as possible the problems identified for that patient.
- III. Differential Diagnosis: From the problem list, you must be able to develop a complete differential diagnosis, appropriate to the active problems.
- IV. Plans for Management: diagnostic measure, therapeutic measures, patient education.
- V. Documentation: H&P, progress notes, procedure notes
- VI. Self Education

Wards and Consult Services Expectations

- A student will make work rounds each day with team house officers.
- Attending faculty will make teaching rounds with the students daily.
- Your patient assessment/ progress notes should be completed prior to rounds.
- During any rounding session, the student is expected:
 - to be able to present the patient's case
 - to be aware of pertinent lab or other test results (radiology, etc)
 - to know the patient's current medications and their side effects, and
 - to have a basic grasp of the overall diagnostic and therapeutic plans for his/her patient.

Wards Specific Expectations

- Team consists of a resident and intern(s) in addition to a faculty member.
- Call will occur every 4th night.
 - Overnight call is NOT required; call will not exceed 11PM.
 - Call is not optional.
 - Missed calls cannot be made up.
 - Discuss with your team when to show up post-call.
- It is anticipated that you will admit 1-3 patients per call night.
- You will be responsible for doing histories and physicals on all assigned patients.
- You will follow these patients daily, writing progress notes in the SOAP format, documenting patients' care.
- Presentation of patients on rounds.

Consult Specific Expectations

- There is no scheduled call duty during the Consults rotation.
- Weekend duty is specific to the rotation.
- Attend Morning/Noon Report at respective sites
- Student responsibilities include:
 - H & P's done under supervision of house officers.

- Attend team-based subspecialty clinics when they occur.
- Presentation of patients to attending faculty.
- Rounds with attending faculty and house officers.
- There is no scheduled call duty during the Consults rotation.
- Weekend duty is specific to the rotation.
- Attend Morning/Noon Report at respective sites

Clinics Expectations

- Students will spend two weeks attending the various clinics
- Please review the Clinics schedule to ensure that you know where you will be on each day.
- Check your email and the student curriculum website regularly because the clinic schedule is prone to change.
- New Orleans clinic students attend noon report at UMCNO in person Monday through Thursday if clinics are scheduled on LSUHSC or UMC campus, and Grand Rounds on Friday at noon.
- No evaluations; clinic card is record of attendance and basis of grade for the rotation.
- No on-call duty.
- If you must be late, notify your clinic preceptor and Kelly Rauser as soon as possible.

Expectations for all Rotations

1. Attend lecture series and Medicine Grand Rounds.
2. Report any concerns to the directors.
3. Complete nutrition and ethics modules.
4. Request evaluations for consults and wards for each faculty member with whom you spend three or more days on a rotation.
5. Complete End of Block clerkship evaluation.
6. NBME Final Exam.
7. Request all absences before the block begins. Notify your team and the clerkship office (coordinator or director) of any emergent absences (illness, etc).
8. Wear appropriate attire- professional clothing during working hours.
