Resume Synopsis

Dr. Juzar Ali, Professor of Medicine at LSU, is an academic clinician, clinical educator and researcher in the section of Pulmonary Critical Care at LSU Health Sciences Center (LSUHSC), New Orleans and has also worked in health and hospital administration as CMO & CEO through his tenure. He has practice experience in Pakistan, India, Kenya, Unites States and Turkey and has worked nationally and internationally in the field of tuberculosis and has developed programs that contribute to the education of medical students, trainees, allied health professionals, and the community. His clinical, academic, and research interests include the diagnosis and management of tuberculous and non-tuberculous mycobacterial disease and related co-morbidities in pulmonary medicine specially Bronchiectasis. He has participated in various multicenter studies and trials of tuberculosis and Non-TB Mycobacteria and has co-authored a textbook, Pulmonary Pathophysiology, a symptom-based clinical and pathophysiologic review of lung diseases. He has also developed a Chest Radiology PRE-TEST series for medical students and residents. A CDC TB Champion , Dr. Ali is a recipient of numerous teaching awards at LSUHSC , School of Medicine over the last two decades. He is also the Spirit of Charity Awardee for 2022. This award is for his academic, patient care , research , teaching and administrative services in the Charity Hospital system over the last 40 years . He has been consistently recognized as a member of the Best Doctors in America, and is a Fulbright Scholar Teaching Grant and Alumni awardee and Fulbright Senior Scholar Awardee twice with academic tenures in Turkey and India. He has also been a Visiting Faculty to Vietnam under the US-Vietnam Education Fund Program funded by US Congress. Currently his focus is on developing a Mycobacterial Diseases Mentoring, Training & Research program in the section at LSU and creating a NTM-Bronchiectasis /Mycobacterial diseases clinical and cell bank repository/registry and data base in collaboration with other basic science departments at LSUHSC, national and regional centers. Please refer to CV and detailed data of past and current clinical, administrative and leadership roles is also available through the named websites.

National/International Oral Presentations

National & International Speaker and Consultant on Tuberculosis and T-spot test through Oxford Immunotec at IUATLD/ERS/ATS/Others

2015 -2017

Invited Speaker: Hamdard Symposium, Topics: TB, Chest X-Rays, Asthma Dec. 2003

Karachi, Pakistan

Invited Speaker: Turkish Thoracic Society, Izmir Chapter Topic: TB
Izmir, Turkey June 2002

Invited Speaker: Millennium Conference,
Hyderabad, India Dec. 2000

American Thoracic Society Meeting: "TEACH" Program
Chicago, Illinois Mar. 1998

Management of Hemoptysis in Developing Countries:
Golden Jubilee CME and Presentation: DOW Medical College
Karachi, Pakistan Dec. 1996

Adult Respiratory Distress Syndrome: Ojha Institute of Chest Diseases
Karachi, Pakistan Feb. 1996

Clinical Issues in ICU: Ziauddin Post Graduate Hospital
Karachi, Pakistan Feb. 1996

IV International Medical Congress: Presentation of Series
Of Lectures ARDS/SEPSIS/CPR and Fever of Unknown Origin
El-Salvador, South America Feb. 1996

Moderator and Presentation: Workshop on Rifapentine
TB Drug Study
Johannesburg, South Africa Aug. 1995

Hemoptysis – Liaquat National Hospital and OJHA Institute
Of Chest Diseases
Karachi, Pakistan Jan. 1995

Clinical Case Presentation: Aga Khan University Hospital Presentation
Karachi, Pakistan Dec. 1994

Presentations in KARACHI, PAKISTAN 1981-1991

Legionnaires Pneumonia: Pneumonia: Presented in the
Medical Research Meetings in Pakistan (Case Seminar)
Aga Khan University Hospital, Karachi , Pakistan

Pneumonia "The Grey Area" Clinical Presentation at the Liaquat National Hospital
Karachi, Pakistan

Acute Asthma – Modalities of Treatment: Pakistan Society of Chest Physicians
Karachi, Pakistan

Kartagener's Syndrome: Review of Literature and Case Studies in Karachi
Karachi, Pakistan

Pleural Diseases: Study of Pleural Effusion & Cytology: Case Findings in Mesothelioma

Folded Lung Syndrome: Dow Medical College Annual Symposium Karachi, Pakistan

Pulmonary Function: Asthma Symposium, Karachi
Clinical and Physiological Parameters, Asthma Symposium Karachi, Pakistan

Local and Regional Meetings and Lectures

Community Venues in the New Orleans area through Interim LSU Hospital, LSU Health Sciences Center or Under the Aegis of ACCP	2007
Invited Speaker: Ochsner 13 th Annual Learning Symposium	2007
Invited Speaker: NO City ID Meeting: TB Update	Jun. 2007
Invited Presentations at Internal Medicine Board Reviews	2007 - Present
Invited Speaker: Tulane University MPH Program	Aug. 2004
Invited Speaker: AIDS ACTU Scientific Meeting Topic: TB Curriculum	May 2004
Invited Speaker: AAPI Annual Conference Topic: FLU	Mar. 2004
Invited Speaker: DHH State of La OPH Program Topic: TB Update	Oct. 2003
RCP Foundation Health Professionals Seminar Topic: CXR	May 2003
Invites Lecturer: Section of Physical Medicine & Rehab LSUHSC, TOPIC: Asthma	2000
Invited Lecturer for Biannual Core Courses in MPH & TM Programs Tulane University School of Public Health	1998, 1999, 2000
Minority Students Summer Program: Office of Community and Minority Health, LSU Health Sciences Center	2010 - 2012
TB Lecture, APIC	May 1999
Pulmonary Disorders OB/GYN Board Review Lecture	April 1997, 2002, 2003

TB and HIV 10 th Annual Winter Course LSU School of Medicine	Dec. 1996
Sepsis and ARDS CME Meeting of Association of Pakistani Physicians of North America New Orleans, Louisiana	1996
Clinical Case Presentation Moderator: Winter Course New Orleans, Louisiana	Dec. 1995
TB Update Texas Club of Internists, Fall Clinical Meeting	Sep. 1995
TB Update ACP (Southern Chapter) New Orleans, Louisiana	Apr. 1995
Clinical Cases Presentation: Winter Course – Moderator LSUMC, New Orleans, La.	Dec. 1994
Clinical Case Presentation: ACCP Meeting – Moderator New Orleans, La.	Oct. 1994
TB Update: Primary Care of HIV, Southern Medical Assoc.	Oct. 1993
TB Drugs and BCG TB: Preceptorship Program Coordinator TB Preceptorship Program	Oct. 1993
Pulmonary Medicine: “Show and Tell” American Board of Internal Medicine Annual Review Course	Sept. 1993, 1994 Jul. 1995, 1996, 1997 1998, 1999, 2000 to Present
Tuberculosis: New Orleans Emergency Medicine Seminar New Orleans, Louisiana	Jun. 1993
TB and HIV Infection: Delta Region AIDS ETC Fourth Annual HIV Conference for Primary Care Providers	Apr. 1993
Tuberculosis Update: Family Practice Update New Orleans, La.	Mar. 1993

Posters

Multiple TB & NTM posters as American Thoracic Society Member	2018 - 2019
Ali, J et al: 4 Posters: TB in Student Run Homeless Program Clinics supporting Tulane Students	2018-2019
HIV-T spot TB poster	2016
Teaching Tool: Radiological and Bronchoscopic Correlation; Vergara N, Ali J	2008

TB Education and Screening: Poster presentation Accepted:
IUATLD Meeting, Budapest Hungary

Apr. 2000

Poster Presentation: TEACH PROGRAM
SGEA Meeting

Mar. 1998

Editorial Boards

Journal of TB & Therapeutics

Pulmonary Open Library (POL)

Other Creative Products/Projects

*TEACH Program - Tuberculosis Education Aimed at Community Health (TEACH) A community outreach education and awareness program focusing on inner city venues with teams of medical students leading to the development of informational tools.

- Models of delivery through Telemedicine programs
- Video DOT program for TB Rx at Wetmore TB clinic
- HALE TELEMED VIDEO VISIT PROGRAM

Results of Mentored Projects

1. Liaquat National Hospital, Karachi University Pulmonary Team Drs. ma et al 1981-91
Teaching/Research Product, resulting in Legionella Pneumonia Publication
and Diploma in TB and Chest Diseases Courses recognized by Karachi University
2. NIH funded "TEACH" Program: Target Medical Students LSU Health Sciences Center 1996 - 2001
Result: Mentoring Minority Medical Students: Grant Applications Result: LSU Medical Students Run
Homeless Shelter TB Program: Grant Through ACCP
3. Guided Clinical Fellow Through Wetmore Clinic Resulting in Grant Award
through American Pediatric Association
4. Funding of Trauma Program Interim LSU Hospital, 2010
Medical Center of Louisiana New Orleans
5. Lead city-wide Crescent City Beacon/Louisiana Public Health Institute 2012
Electronic Medical Record Program
6. Tulane University School of Public Health and Tropical Medicine:
TB Course Faculty Practicum: Grant applications submitted by
students through IUAT

7. Tulane University Students TB Program in Homeless Shelters resulting in multiple posters and grant Applications Through American Public Health Association
8. VDOT Program: Mentored Student for Grant Application Through Wetmore

Current Mentoring Projects

Oxford Immunotech T Spot Program
 TB NTM Mycobacterial Program
 LACaTS Road Map
 Research Associates
 Basic Science /clinical Science Liaison
 Clinic Navigational Processes
 Homeless Shelters Program: Tulane Medical Students Group

 INSMED Support Mentoring
 NTM Bronchiectasis Patient Support Group

Community Outreach Programs and Recognition

Doctors of the World: Enrolled Volunteer

Health Care Heroes List City Business New Orleans Award 2012

Post-Katrina New Orleans Voluntary Faculty Advisor and Coverage for Homeless Clinic; General & TB Program with Medical Students with Focus on Serving and Teaching

World TB Day Activities: Commendation Letter from Dr. Kochi, Director, Global TB Program WHO

TB Screening in Homeless Program; Nominated for the Governor's Community Service Award through ACCP/Chest 1999, 2000 Grant Awarded 2003: \$5,000.00

Tuberculosis Education Aimed at Community Health (TEACH PROGRAM): Covering the Greater New Orleans community clinics and centers TB Community Education: ACCP Network on Cultural Diversity in Medicine July 1999

Video Program through Wetmore TB CLINIC, New Orleans

Part 2: Healthcare and Hospital/Ambulatory Care Administration

Ref: AIMSAB4QTTTTTHHHHHFPPPP

Updated: IN CONJUNCTION WITH ACADEMIC CV

Background Information

Through June 2013, MCLNO/LSU Hospital (ILH) was a 225 bed acute-care Level 1 Trauma Center hospital catering to a wide mix of patients and services with all specialties and subspecialties, including Psychiatry and Behavioral Health. Its ambulatory services included outpatient surgical units, a diagnostic and treatment center (DTD), and a very busy, multispecialty hospital-based clinic structure. The hospital had about 800 faculty members on its staff from both Tulane and LSUHSC. When I joined in 2008 and until June 2013, it was one of the seven state-run facilities managed by the LSU Systems Office as part of its hospital and clinic network. The LSU hospital in New Orleans was the flagship, with a robust and extensive tertiary ambulatory clinic's system and specialty referral center. This was the hospital and clinic system to which I was committed academically, clinically, and administratively as Chief Medical Officer, and then for one year as Interim Chief Executive Officer. In June 2013, the hospital was placed under contract and became part of a private health care system called Louisiana Children's Medical Center (LCMC). I remained CMO until December 2013 when I stepped down and moved back to the LSU Health Sciences Center (LSUHSC), my original base.

At the invitation of the Chancellor and Dean of LSUHSC, I was appointed as the CMO of the LSU Health Network Clinics (LSUHN). The LSUHN is a 501(c)3 non-profit within the LSU Health network, its providers a part of the multidisciplinary faculty group practicing at clinics and hospitals throughout the city, such as Interim LSU Hospital/MCLNO /State Charity Hospital Systems , which later converted under the Public-Private Partnership as LCMC Health System ,(Touro, East Jefferson General and West Jefferson General.) and the Ochsner Health System Hospital and Clinics

Chief Medical Officer, LSU Health and LSU Health Care Network

2014 - Present

New Orleans, Louisiana

Report to Dean and President, Network Board; Work directly with CEO in administrative leadership capacity leader for Quality Council Team dealing with all aspects of quality domains; manage surveys PQRS/GPRO/QCQR measures and reporting; lead for Patient Safety Council, focusing on regulatory and compliance issues; co-chairman for credentials and establishing peer review processes; administrative lead in Clinical Physician Leadership Group (CPLG) as a surrogate of medical executive committee in the ambulatory setting; introduced new program business growth initiatives for the network; liaison with managed care Medicaid and Medicare groups and commercial payers to transform into value based quality programs and incentivized initiatives under LSU Health; developed partnership with pharmacy based programs such as CVS health and Walgreens; clinical lead for LSU Health Telemedicine and Telehealth Programs; co-lead and liaison with LCMC/UMC/OCHSNER hospital systems.

Chief Medical Officer, Interim Chief Executive Officer, LSU Hospital

2008 - 2013

New Orleans, Louisiana

Chief Quality Officer and Chairman of Department of Quality and Performance Management (CQM); managed medical administration and operations with direct supervision and report of hospital-based and ambulatory community medicine program clinics; supervised with direct report: Level 1 trauma program, anesthesia department, and research department; co-supervised hospital-based services in pathology, radiology, and pharmacy; coordinated LSU 7 hospital based system Clinical Health Care Effectiveness programs; engaged in clinical services contracting with direct control; supervised disease management and population health programs; lead and liaison with staff to enhance patient safety and experience programs with Patient Advocacy team; monitored patient satisfaction surveys and addressed issues pertaining to patient complaints and/or grievances; focused on quality and value of care; focused on HCAPHS/Press Ganey Surveys/core measures and other performance metrics with emphasis of value-based care; supervised JC/OPH/DHH/Regulatory Compliance/OPPE/FPPE processes; direct GME and medical staff office activities with close interaction with medical staff, school leadership, and staff to converge the academic, clinical, and training objectives with patient care services in both in-patient and outpatient areas; Physician Champion for full implementation of EPIC electronic medical recording software; member of the transition team of a public-to-private partnership to LCMC, a private corporation established to manage Interim LSU hospital's transition to University Medical Center (UMC)

Achievements of Note

- Increased engagement of faculty and doctors from LSU Health Science Center and Tulane University Health Science Center
- Enhanced community relationship with increasing access and referral base
Program Interim LSU Hospital, Medical Center of Louisiana New Orleans 2010
- Developed and implement evidence-based referral patterns towards better utilization of services and value based care
- Coordinated IT and Quality Department and Medical staff Office activities towards meaningful partnership that addressed the CMS/JC/regulatory standards through robust OPPE/FPPE and IPPE pathways

- Established patient safety programs through Infection Control Department
- Converted CQM into a Comprehensive Quality Meeting with input and engagement of all depts clinical, facility, safety and patient centered approaches ; Direct report to me with targeted PDCA methodology and Fish diagram templates
- Merged the reporting of above to and with the Medical Executive Committee
- Established specific STS based CT surgery department performance review as a sequele to FPPE
- Incorporate Community leaders and seek their engagement
- Make the RCA/Sentinel events processes more transparent and robust as a system improvement process
- Engaged faculty in specific hospital based operations requiring their leadership such as Throughput /Discharge planning /ICU LOS etc...
- Developed and implemented Telemed programs; ED Telestroke & Specialty Clinics etc
- Lead successful “Big Bang “ implementation of EPIC electronic medical recording software through the entire LSU Health system, including subsequest upgrades
- Resurrected and streamlined the Ethics Committee
- Organized the Clinical Research Network through the hospital and school IRB and established liaison with non-NIH, pharmaceutical based Clinical Research program
- Clinical lead for the national ONC Beacon HIE Program in New Orleans representing LSUHSC and LSU hospital; currently partnering with same and LPHI through LSU Health
- Monitor and approval officer for clinical contracts for hospital and other physician services LSU Health Sciences Center
- Developed a performance dashboard for evaluation of #17 as above
- Physician Champion for all system based Chronic Disease Management
- Direct in-charge of all primary care and specialty hospital based clinics with faculty, staff, and other personnel
- Expanded existing programs such as Hepatology and Hepatitis C
- Started new programs such as Obesity Weight Management and Lifestyle Balance
- Started group clinics for difficult to control diabetes with multidisciplinary approaches to address requirements of population health

- Developed a pilot Palliative Care Program
- Established community liaison with trauma department/ED and ICUs focussing on prevention of fatalities and early intervention and coordination through LERN
- Designed and streamlined processes related to emergency and disaster management with mock drills and exercises
- Created multidisciplinary engagement and buy-in related to policies and processes in Care in Crises Situations and protocol development
- Coordination and partnerships with community clinics such as Daughters of Charities, Excelth, and St. Thomas Community Clinics

Part 3: Quality and Performance Data and Patient Experience Surveys through National Surveys and Payor ONE TIME SNAPSHOT AS AN EXAMPLE

The Perpetual Migrant is story of a spirit constantly on the move. Inspired as a memoir primarily for his grandchildren, family, and friends, this personal narrative reflects Juzar Ali's experience and observations in post-partition era in Pakistan. He takes the reader through the ups and downs of his life and his experiences across the world. The book is his journey to his roots and through the challenges of a migrant family. Growing up amid poverty with enclaves of abundance within this poverty, the author recounts in this autobiography the migration back and forth to and from USA. As he does so, he observes poverty amid the abundance around him in the US and sees this impacting the most in health care in which he has been intrinsically embedded throughout his life. These pockets of poverty in the US are not necessarily due to limited resources but more because of lack of commitment and dysfunctional priorities we have at an individual, societal, and national level.

Press Release April 2020

“**The Perpetual Migrant:** Finding My Way from Abundance in Poverty to Poverty of Abundance”

Page Publishing

Headline

Author Juzar Ali's new book “The Perpetual Migrant: Finding My Way from Abundance in Poverty to Poverty of Abundance” is a personal memoir of an eventful life across the globe.

Short Description

Recent release “The Perpetual Migrant: Finding My Way from Abundance in Poverty to Poverty of Abundance” from Page Publishing author Juzar Ali is an autobiographical reflection his early years in India and Pakistan, his career and experience in medicine in Pakistan and other countries, during which he has had an unvarnished view of the fragmented and convoluted healthcare system in America.

Long Description

Juzar Ali is an Indian-born physician and married father and grandfather who grew up in Pakistan and now lives in New Orleans, Louisiana, where he serves as an academic clinician, clinical educator, and clinical researcher at the LSU Health Sciences Center. He has published his latest book “The Perpetual Migrant: Finding My Way from Abundance in Poverty to Poverty of Abundance”: a gripping autobiography that follows his journey from Pakistan as the son of a poor shopkeeper determined to provide his only son with the best education available to medical school and a coveted residency in the United States.

“The Perpetual Migrant” is the story of a spirit constantly on the move. Inspired as a memoir primarily for his grandchildren, family, and friends, this personal narrative reflects Juzar Ali’s experience and observations in the post-partition era in Pakistan. He takes the reader through the ups and downs of his life and his experiences across the world. The book is his journey to his roots and through the challenges of a migrant family. Growing up amid poverty with enclaves of abundance within this poverty, the author recounts in this autobiography the migration back and forth to and from USA. As he does so, he observes poverty amid the abundance around him in the US and sees this impacting the most in health care in which he has been intrinsically embedded throughout his life. These pockets of poverty in the US are not necessarily due to limited resources but more because of lack of commitment and dysfunctional priorities we have at an individual, societal, and national level.

Published by Page Publishing, Juzar Ali’s engrossing book is a compelling autobiography and a stark juxtaposition of the vast differences between Pakistan, the country of his youth, and his adopted American home.

Net proceeds from the sale of this book to be donated to TAHA (Towards Achieving Health Care & Access) Foundation. Donations welcome at <https://tahaaligandhifoundation.org/>

Part 4: Summary

CLINICAL ,SCIENTIFIC , ACADEMIC & INSTITUTIONAL FOCUS

Tuberculosis
Mycobacterial Diseases
NTM
Non-CF Bronchiectasis
Chest Radiology
Public Health

Community & Personal/Professional Focus

Healthcare delivery, safety net-community partnerships and “connecting the dots” of care in clinical practice; community liaison with city clinics and systems under LSU health faculty group practice network with FQHCS and TB Public Health System

Summary

An academic/clinical base now currently working and mentoring within the school as a “clinician”/clinical educator and in clinical research in the field of mycobacterial disease and bronchiectasis with intramural, external, industry, and philanthropic grant support. Previous experience includes liaison with academic faculty, clinical chairs, LSU & Tulane medical schools and academic teaching hospitals. Healthcare leadership through engaged physician integration. A leadership position experience with value- oriented business development outlook, and operational experience in ambulatory patient care clinic of a faculty group practice in an academic health system and public & community health. A “4P approach” with close coordination with Patients, Providers, Partners and Payers with a Patient Centered Health Care delivery as a primary goal and improving navigation of care while reducing fragmentation and redundancy of care for our patients.
