Retina Fellow: Welcome to Kevin Kirchner MD, an ophthalmic plastics and neuro ophthalmologist, who recently joined the LSU department of Ophthalmology. Dr. Kirchner completed his under-graduate studies at Duke University, medical school at Louisiana State University and graduate studies at Duke University, medical school at Louisiana State University, department of Ophthalmology.

Faculty Welcome: Dr. Bruce Barron was appointed as the Viola and Charles Lacoste Senior Endowed Professor. Dr. Maria Bernal and Dr. Jayne S. Weiss were two of only five New Orleans ophthalmologists to be named best Doctor 2017 in New Orleans Magazine.

Faculty News: Welcome to Kevin Kirchner MD, an ophthalmic plastics and neuro ophthalmologist, who recently joined the LSU department of Ophthalmology. Dr. Kirchner completed his undergraduate studies at Duke University, medical school at Louisiana State University and graduate studies at Duke University, department of Ophthalmology.

Message from LSU Eye Center Director: LSU Ophthalmology continues to grow. For the first time since Hurricane Katrina, every ophthalmology residency is now available at our New Orleans office on 3700 St. Charles Avenue. Next month, with the American Academy of Ophthalmology meeting returning to New Orleans, we look forward to welcoming our friends at the LSU Ophthalmology alumni celebration being held at one of New Orleans iconic restaurants, Mother’s Restaurant! Have you tuned in to the MPS Channel for details on the festivities and Mardi Gras entertainment! Hope to see you there — RSVP details are included in a separate email.

Research News: LSU Eye Center is chosen as a site for the multi center National Eye Disease Study (ZES) to investigate whether long term treatment with valacyclovir helps reduce eye disease and/or chronic pain in patients with Shingles. Patients who have had a rash from Shingles over the eye, zoster keratitis within the prior year and are 18 and older may qualify.

Dr. Herbert Kaufman, former Chair of LSU Ophthalmology has been named the 2017 Jones/Smolin Lecturer and will be presenting this prestigious lecture on Monday, November 13 at the American Academy of Ophthalmology meeting in New Orleans, 2017.

Dr. Danial wall was interviewed on WWL TV — a local & national channel in New Orleans. — about the solar eclipse. LSU Eye Center is chosen as a site for the multi center National Eye Disease Study (ZES) to investigate whether long term treatment with valacyclovir helps reduce eye disease and/or chronic pain in patients with Shingles. Patients who have had a rash from Shingles over the eye, zoster keratitis within the prior year and are 18 and older may qualify.

Future Events: Residents and Fellows — make sure to attend the upcoming Slide Show entitled “Glaucouma Drainage Implants: Personal Experiences From Resident to the Present.”

Residents: Make a Gift! Make a Gift! Make a Gift!
