

CURRICULUM VITAE

Nicholas W. Gilpin

Current Title: Professor
Business Address: Department of Physiology, Room 7205
 1901 Perdido Street
 New Orleans, LA 70112
Business Telephone and Fax: T: 504-568-6182
 F: 504-568-6158
Business email Address: ngilpi@lsuhsc.edu
Citizenship: U.S.A.
Education:

Undergraduate	University of Texas at Austin B.A. in Psychology B.A. in Spanish Language	1996-2000
Graduate/Medical	Purdue University Ph.D. in Psychology	2001-2005
Post-Doctoral Fellowship	The Scripps Research Institute	2005-2011

Academic, Professional, and Research Appointments:

Assistant Professor, Physiology Department, LSUHSC	2011-2016
Assistant Professor, Neuroscience Ctr. of Excellence, LSUHSC	2011-2016
Assistant Professor, Alcohol & Drug Abuse Ctr. of Excellence, LSUHSC	2013-2016
Associate Director, Alcohol & Drug Abuse Ctr. of Excellence, LSUHSC	2015-
Associate Professor, Physiology Department, LSUHSC	2016-
Associate Professor, Neuroscience Ctr. of Excellence, LSUHSC	2016-
Associate Professor, Alcohol & Drug Abuse Ctr. of Excellence, LSUHSC	2016-
Professor, Physiology Department, LSUHSC	2019-
Professor, Neuroscience Center of Excellence, LSUHSC	2019-
Professor, Alcohol & Drug Abuse Center of Excellence, LSUHSC	2019-

Membership in Professional Organizations:

Research Society on Alcoholism (RSA); member	2001-
Society for Neuroscience (SfN); member	2004-
Int'l. Society for Biomedical Res. on Alcoholism (ISBRA); member	2010-
National Hispanic Science Network on Drug Abuse (NHSN); member	2010-
The College on Problems of Drug Dependence (CPDD); member	2013-
International Drug Abuse Research Society (IDARS); member	2013-
American College of Neuropsychopharm. (ACNP), Assoc. member	2014-

Membership in ACNP is competitive and considered prestigious in the fields of neuroscience, pharmacology, and psychobiology.

Awards and Honors:

University of Texas at Austin Honors Colloquium Scholarship	1996
U. of Texas Academic Hispanic Award; 4-year academic scholarship	1996-2000
RSA Memorial Award, San Diego, CA	2009
Young Investigator Award; Alcoholism & Stress meeting, Volterra, Italy	2011

Awarded to 4 young alcohol researchers each 3 years for research excellence

NHSN National Award of Excellence in Research by a New Investigator 2011
Awarded to 1 young investigator each year for research excellence

ACNP Travel Award 2012

Honorable Mention for Ziskind-Somerfeld Award, Soc. of Biol. Psychiatry 2012
Annual award for most outstanding research investigation in biological psychiatry

IDARS Young Investigator Award 2013
Awarded to 1 young investigator each 2 years for research excellence

Presidential Early Career Award for Scientists & Engineers (PECASE) 2017
Awarded by the White House Office of Science & Technology to 102 scientists and engineers in the early stages of their independent research careers

Elected Co-Chair of Gordon Research Conference on Alcohol & CNS 2018
Will serve as co-vice chair 2018-2020 and co-chair 2020-2022.

TEACHING EXPERIENCE AND RESPONSIBILITIES

Curriculum Development/Implementation

Created curriculum for LSUHSC Physiology Special Topics Course (PHYSIO 289) titled "Biostatistics for Graduate Students." *This course includes lectures, discussions, and work with datasets. Covered topics include bio-statistical concepts, statistical theory and foundations in probability, how to design experiments, design & statistical considerations related to using vertebrate animals in research, analysis of sex differences, decision-making in statistical tests, power analyses, data transformation, outlier tests, post-hoc tests, data interpretation, data ethics, data replication, and how to assess statistics in review of manuscripts and grants. I am the creator of content for this course, an activity that consumed many hours before this class was offered the first time in Summer 2013.*

Creation of Enduring Teaching Materials

None

Formal Course Responsibilities

Graduate Teaching

Course Director:

LSU Health Sciences Center

Human Physiology for dental students (DENT 1115) 2016-present
 70 clock hours per year, D.D.S. students

This course covers whole-organism physiology for Dental students. My role as Director is to coordinate and oversee lectures, create and proctor exams, manage grades, and meet with students during office hours.

Biostatistics for graduate students (PHYSIO 289) 2013 & 2015
 15 lecture hours, Ph.D students & post-doc fellows

This course covers bio-statistical concepts for Ph.D. students and post-doctoral fellows training for research careers. My role as Director is to create course content, schedule all aspects of the course, and to deliver all material or recruit faculty to cover specialized topics.

Course Co-Director:

LSU Health Sciences Center

Human Physiology for dental students (DENT 1115) 2013-2016
 88 clock hours per year, D.D.S. students

This course covers whole-organism physiology for Dental students. My role as co-director is to, along with the course director, coordinate and oversee lectures, create and proctor exams, to manage grades, and meet with students during office hours.

Co-Instructor/Lecturer:

LSU Health Sciences Center

Human Physiology (DENT 1115) 2011-present
2-10 lecture hours per year x 7 years

This course covers whole-organism physiology for Dental students. My lectures cover electrical properties of membranes, electrical and chemical aspects of synaptic transmission, sensory systems from receptors to brain, motor systems from brain to muscle, learning & memory, and sleep & behavior.

Modern Breakthroughs in Biomedical Sciences: 2014

A Focus on New Techniques and Technologies (PHYSIO 289)

2 lecture hours to Ph.D. students

This course introduces graduate students to cutting-edge basic science techniques. My lectures cover optogenetics and chemogenetics.

Synaptic Organization of Behavior (ANAT 264) 2014

4 lecture hours to Ph.D. students

This course relates synaptic transmission to behavior across organisms. My lectures cover the limbic system.

Molecular Neurobiology (NEURO 250) 2014

4 lecture hours to Ph.D. students

This course emphasizes problem solving and experimental design as they relate to hypothesis-driven research. My lectures cover neural control of behavior.

Dental Grand Rounds (DENT 4112) 2016-present

10 contact hours per year

In this course, D.D.S. students (D1-D4) analyze a clinical case study and prepare a presentation, under the guidance of mentors, that describes the clinical problem, solution, and outcome. My role is basic science mentor.

Undergraduate Teaching

Course Director:

San Diego State University

Statistical Methods in Psychology (PSY 270) 2008

30 lecture hours per semester x 1 semesters

This course covered bio-statistical concepts for undergraduates. I was the course director and lecturer for all course material.

Univ. of California-San Diego

Introduction to Statistics (PSYC 60) 2009-2011

30 lecture hours per semester x 2-3 semesters/year

This course covered bio-statistical concepts for undergraduates. I was the course director and lecturer for all course material.

Physiological Psychology (PSYC 106) 2010
30 lecture hours per semester x 2 semesters
This course covered behavioral neuroscience for undergraduates. I was the course director and lecturer for most course material.

Co-Instructor:

LSU Health Sciences Center

Human Physiology for nursing students (HS 2410) 2011-2016
2-4 lecture hours per semester x 8 semesters
This course covers whole-organism physiology for nursing students. My lectures cover motor systems from brain to muscle, learning & memory, and sleep & behavior.

Human Pathophysiology for nursing students (HS 3410) 2012-2016
2 lecture hours per semester x 6 semesters
This course covers whole-organism pathophysiology for nursing students. My lectures cover disorders of brain function and disorders of neuromuscular function.

General & Oral Physiology for dental hygiene (DHY 3202) 2012
2 lecture hours
Course covers whole-organism physiology for dental hygiene students. My lectures covered nerve excitation and sensory physiology.

Departmental/Interdisciplinary Teaching Conferences

None

Junior Faculty Research Development Committee Chair:

1. Scott Edwards, Ph.D., Assistant Professor of Physiology, LSUHSC
2. Tiffany Wills, Ph.D., Assistant Professor of Cell Biology, LSUHSC
3. Liz Simon, Ph.D., Assistant Professor of Physiology, LSUHSC
4. Jason Gardner, Ph.D., Associate Professor of Physiology, LSUHSC
5. Lisa Harrison-Bernard, Ph.D., Assoc. Prof. of Physiology, LSUHSC
6. Flavia Souza-Smith, Ph.D., Assistant Professor of Physiology, LSUHSC
7. Xinping Yue, Ph.D., Assistant Professor of Physiology, LSUHSC
8. Stefany Primeaux, Ph.D, Assistant Professor of Physiology, LSUHSC
9. Robert Siggins, Ph.D., Assistant Professor of Physiology, LSUHSC

Undergraduate, Medical, or Graduate Students Trained:

Post-Doctoral Fellows:

LSU Health Sciences Center

1. Brandon Baiamonte, Ph.D. 2012-2013
2. Emily Roltsch, Ph.D. 2012-2014
3. Annie Whitaker, Ph.D. 2012-2016
4. Christy Itoga, Ph.D. 2014-2016
5. Elizabeth Avegno, Ph.D. 2016-
6. Marcus Weera, Ph.D. 2017-
7. Udit Datta, Ph.D. 2017-2018
8. Amanda Pahng, Ph.D. (co-mentor) 2017-
9. Elizabeth Fucich, Ph.D. (co-mentor) 2017-

- | | |
|----------------------------------|-------|
| 10. Lucas Albrechet-Souza, Ph.D. | 2018- |
| 11. Christian Montanari, Ph.D. | 2019- |
| 12. Alejandra Jacotte, Ph.D. | 2019- |

Graduate Students

LSU Health Sciences Center

Major Professor

- | | |
|---|-----------|
| 1. Brittni Baynes; Physiology; chair M.S. committee | 2013-2014 |
| 2. Allyson Schreiber; Physiology; chair Ph.D. committee | 2014-2018 |
| 3. Alicia Ray-Botello; Physiology; chair M.S. committee | 2015-2017 |
| 4. Zachary Stielper; Physiology; chair Ph.D. committee | 2017- |
| 5. Taylor Templeton; Physiology; chair Ph.D. committee | 2018- |
| 6. Nathan Sharfman; Physiology; chair Ph.D. committee | 2019- |
| 7. Donnell White; Physiology; chair Ph.D. committee | 2019- |

Dissertation Committee (member)

- | | |
|---|-----------|
| 1. Xu "Sophie" Teng; Ph.D., LSUHSC Physiology | 2012-2014 |
| 2. Travis Doggett; Ph.D., LSUHSC Physiology | 2013-2014 |
| 3. Aram Asatryan; Ph.D., LSUHSC Neuroscience | 2013-2014 |
| 4. Jacques Mayeux; Ph.D., LSUHSC Physiology | 2014-2016 |
| 5. Alan Mouton; Ph.D., LSUHSC Physiology | 2014-2017 |
| 6. Adrienne McGinn; Ph.D., LSUHSC Physiology | 2015- |
| 7. Xin Fu; Ph.D., Tulane Neuroscience | 2016- |
| 8. Jarrod Harman; M.S., LSUHSC Physiology | 2017- |
| 9. Krystal Belmonte; Ph.D., LSUHSC Physiology | 2018- |

Medical Students

Summer Research Rotations

- | | |
|---------------------|------|
| 1. Madelyn Weil | 2012 |
| 2. Abdelrahim Abdel | 2012 |

Foreign Research Interns

- | | |
|--|------|
| 1. Pauline Estival
Pharmacy student at Université d'Auvergne, France | 2015 |
| 2. Tomasz Bielwaski
Ph.D. student at Wroclaw Medical University, Poland | 2019 |

Undergraduate Student Researchers

LSU Health Sciences Center

Abigail Olinde, Andrew Schroth, Alissa Ice, Margaret Hazelton, Ryan Jones, Carrie Lloyd, many others

University of California-San Diego

Ben Isakson, Lisa Zazworsky, Hillary Cormier, Lindsey Ong, Darshan Patel, Shin Trieu, Alfonzo Luna, Casey Carmichael, Michael Barrus, Brent Costa, Tyler Sprague, Neha Jaiswal, Daniel Ramirez, Brittini Baynes, Eva Martinez

San Diego State University

Juliana Todesco

Undergraduate Student Teachers-in-Training

University of California-San Diego

Joanna Ho (PSYC 60)

2009

High School Student Researchers

LSU Health Sciences Center

Reuben Hogan (1st Place; LSUHSC Summer Research Poster Session),
many others

Grade School Teacher Researchers

LSU Health Sciences Center

Melissa Faucheux, Kathleen Stewart

Funding for Mentees

LSU Health Sciences Center

Melissa Faucheux (New Orleans area science teacher)

2012

APS "Frontiers in Physiology" Award

Melissa Faucheux (New Orleans area science teacher)

2013

APS "Frontiers in Physiology" Award

Annie Whitaker (post-doctoral fellow)

2013

LSUHSC ADACE Pilot

\$10,000

Glucocorticoid co-chaperone, FKBP5, as a target for stress-induced escalation of alcohol intake

Brittni Baynes (graduate student)

2013

SPINES month-long Research Program in Woods Hole (all expenses paid)

Kathleen Stewart (Atlanta area science teacher)

2014

APS "Frontiers in Physiology" Award

Allyson Schreiber (graduate student)

2015

NIH/NIAAA NRSA F30 fellowship

Elizabeth Avegno (post-doctoral fellow)

2017

NIH/NIAAA NRSA F32 fellowship

Adrienne McGinn (graduate student in Edwards lab)

2017

NIH/NIAAA NRSA F31 fellowship

Zachary Stielper (graduate student)

2018

NIH/NIAAA NRSA F30 fellowship

Elizabeth Fucich (post-doctoral fellow in Molina lab)

2018

NIH/NIAAA NRSA F32 fellowship

Marcus Weera (post-doctoral fellow)

2019

NIH/NIAAA NRSA F32 fellowship

University of California-San Diego

Casey Carmichael (undergraduate research assistant) 2010
UCSD Warren College Undergraduate Research Award

Awards for Mentees

LSU Health Sciences Center

Annie Whitaker (post-doctoral fellow) 2015
American Physiological Society CNS Section Excellence in Research Award
Awarded to 1-2 young investigators per year for meritorious research at EB.

Annie Whitaker (post-doctoral fellow) 2015
American College of Neuropsychopharmacology Travel Award
This prestigious award funds travel to the 2015 ACNP meeting.

Elizabeth Avegno (post-doctoral fellow) 2017
Volterra Stress & Alcohol Meeting Travel Award
This award funds travel to the 2017 Stress & Alcohol meeting in Volterra, Italy.

Elizabeth Avegno (post-doctoral fellow) 2018
Elected chair of the 2020 Gordon Research Seminar (GRS) on Alcohol & CNS

Allyson Schreiber (graduate student) 2018
LSUHSC Chancellor's Award for Most Outstanding Student
This award is given to one Ph.D. graduate at LSUHSC each year.

Elizabeth Avegno (post-doctoral fellow) 2018
Winner of RSA Enoch Gordis Research Recognition Award
This award is given to one biomedical post-doctoral fellow at each year's meeting.

RESEARCH AND SCHOLARSHIP

Grants and Contracts:

Currently Funded

1R01AA023305-01 2014-2020
National Institutes of Alcoholism and Alcohol Abuse & General Medical Sciences
Role of Neuropeptides in Stress-Induced Escalation of Alcohol Drinking
Role: PI
\$1,139,537 direct costs

1F30AA023696-01 (PI: Allyson Schreiber) 2015-2020
National Institute of Alcoholism and Alcohol Abuse
Prefrontal Cortex Stress Peptides in Traumatic Stress-Induced Escalation of Alcohol
Drinking
Role: Mentor
\$211,908 direct costs

1I01BX003451-01A1 2017-2021
Department of Veteran Affairs
Targeting Melanocortin-4 Receptors to Reduce Pain in U.S. Veterans
Role: PI
\$937,823 direct costs

1R01AA026531-01 2017-2022

NIH/NIAAA

Traumatic stress increases alcohol drinking via endocannabinoid disinhibition of basolateral amygdala

Role: MPI (with Jeffrey Tasker)

\$1,492,894 direct costs

1R01AA026531 Supplement

2018-2020

Cohen Veterans Biosciences (CVB)

Traumatic stress increases alcohol drinking via endocannabinoid disinhibition of basolateral amygdala

Role: PI

\$251,767 direct costs

1R21AA025736-01 (PI: Scott Edwards)

2017-2019

NIH/NIAAA

Role of GluA1 in the Escalation of Alcohol Drinking in Nicotine-Dependent Animals

Role: Co-I

\$275,000 direct costs

1R01HL135635-01 (PI: Jason Gardner)

2017-2021

NIH/NHLBI

Chronic Nicotine Inhalation Increases Susceptibility to Cardiovascular and Pulmonary Diseases Through Inhibition of Local Compensatory Mechanisms.

Role: Co-I

\$1,470,000 direct costs

1F32AA025831-01 (PI: Elizabeth Avgeno)

2017-2020

NIH/NIAAA

Brain Reward and Stress System Interactions in Alcohol Dependence

This study examines the interaction of brain stress and reward systems in alcohol dependence.

Role: Mentor

\$170,094 direct costs

1F31AA025812-01A1 (PI: Adrienne McGinn)

2017-2019

NIH/NIAAA

Alcohol Dependence and Pain: Role of Cingulate Cortex Glucocorticoid Receptors

This study examines the neurobiological intersection of pain and alcohol dependence.

Role: Co-mentor

\$71,754 direct costs

1R44DA046300-01 (PI: Maury Cole)

2018-2020

NIH/NIDA

Development of Nicotine Vapor Inhalation Chambers for Rodent Self-Administration

This study develops and optimizes nicotine e-cigarette vapor self-administration in rats.

Role: Subcontract PI

\$114,001 direct costs in Phase 1

1R01AA025792-01A1

2018-2023

NIH/NIAAA

Alcohol and Traumatic Brain Injury; Neuronal and Behavioral Consequences

This study examines the neurobiological basis for traumatic brain injury effects on alcohol-related behavior and physiology.

Role: MPI (with Patricia Molina)

\$1,125,000 direct costs

1F30AA026468-01A1 (PI: Zachary Stielper)

2018-2023

NIH/NIAAA

The Role of Amygdalar Endocannabinoids in Alcohol Drinking after Traumatic Brain Injury (TBI)

This fellowship trains an M.D./Ph.D. student in alcohol research and examines the neurobiological basis for TBI effects on alcohol-related behavior and physiology.

Role: Mentor

\$217,612 direct costs

1F32AA026779-01A1 (PI: Elizabeth Fucich)

2018-2020

NIH/NIAAA

Stress effects on traumatic brain injury: neural mechanisms of escalated alcohol drinking.

This project tests the neurobiology underlying stress and TBI interaction effects on alcohol drinking.

Role: Co-mentor

\$101,296 direct costs

1F32HL140865-01 (PI: Tyler Basting)

2018-2020

NIH/NHLBI

ADAM17 Mediated Arterial Pressure Regulation in Conscious Mice: An Optogenetic Study

Role: Collaborator

\$120,000 direct costs

1R21AA026022-01A1

2018-2020

NIH/NIAAA

Generation and validation of a CRFR1-cre transgenic rat to study alcohol dependence

Role: PI

\$258,388 direct costs

N/A

2019

Department of Veteran Affairs

Field based meeting titled "Pain and Opiate Addiction in U.S. Veterans"

Role: PI

\$50,000 direct costs

1F32AA027145-01A1 (PI: Marcus Weera)

2019-2020

NIH/NIAAA

The role of amygdala outputs in stress-induced escalation of alcohol drinking

This fellowship trains a post-doctoral fellow in alcohol research and examines the neurobiology underlying stress-induced escalation of alcohol drinking.

Role: Mentor

Research Review Committee:

NIAAA Study Section AA-4 Neuroscience Review Subcommittee; ad hoc	2012
NIAAA Study Section ZAA1 DD (04) Special Emphasis Panel; ad hoc	2012
NIAAA Study Section ZAA1 DD (04) Special Emphasis Panel; chair	2013
NIAAA Study Section AA-4 Neuroscience Review Subcommittee; ad hoc	2014
NIAAA Study Section ZAA1 DD (04) Special Emphasis Panel; ad hoc	2014
CSR Study Section; Neurotoxicology of Alcohol (NAL); ad hoc	2015
NIAAA Study Section ZAA1 CC (01); Consortium review; ad hoc	2015
NIAAA Study Section ZAA1 DD (05) Special Emphasis Panel; chair	2015 (June)
NIAAA Study Section ZAA1 DD (05) Special Emphasis Panel; ad hoc	2015 (Nov)
NIAAA Study Section ZAA1 JJ (08) Special Emphasis Panel; member	2016
CSR Study Section; Neurotoxicology of Alcohol (NAL); standing member	2016-present
NIAAA Study Section ZAA1 CC (51); Center review; ad hoc	2018
NIAAA Study Section AA-4 Neuroscience Review Subcommittee; ad hoc	2018
NIAAA Study Section AA-4 Neuroscience Review Subcommittee; ad hoc	2019

Organized & Chaired Scientific Meetings:

National:

1. Nat'l. Hispanic Science Network (NHSN) Mtg.; Co-Chair 2012
2. D'Angelo Workshop on Mental Health; Founder & Organizer & Chair 2020
3. Gordon Research Conference (GRC) on Alcohol in CNS; Vice Chair 2020
4. Gordon Research Conference (GRC) on Alcohol in CNS; Chair 2022

International:

1. Intl. Drug Abuse Res. Soc. (IDARS) Mtg.; Morocco; Co-chair 2019

Organized & Chaired Symposia:

National:

1. *Neuropharmacology of excessive alcohol drinking in rodent models*. RSA meeting in San Diego, CA, 2009. Role: Organizer & Chair.
2. *Negative affective states and addiction*. NHSN meeting in Miami, FL, 2011. Role: Organizer & Chair.
3. *Vulnerability factors for excessive alcohol drinking and alcohol-related behavioral dysregulation*. RSA meeting in Atlanta, GA, 2011. Role: Organizer & Chair.
4. *The translational intersection of depression and addiction*. NHSN meeting in San Antonio, TX, 2015. Role: Co-organizer & Co-chair.
5. *Corticotropin releasing factor: Novel molecular, cellular and system roles*. SfN meeting in Chicago, IL, 2015. Role: Mini-symposium co-chair.
6. *Brain reward and brain stress system cross-talk in alcohol addiction*. Research Society on Alcoholism (RSA) meeting in San Diego, CA, 2018. Organizer & Chair.
7. *Ventral Tegmental Area (VTA) Cell Heterogeneity in Health & Disease*. Mini-symposium at Society for Neuroscience (SFN) meeting in Chicago, IL, 2019. Organizer & Chair.

International:

1. *Post-traumatic stress disorder & alcohol dependence*. Alcoholism & Stress Meeting in

- Volterra, Italy, 2011. Role: Organizer & Chair.
2. *Alcohol-induced plasticity in brain NPY systems*. International NPY-PPY-PP Meeting, Montreal, Canada, 2012. Role: Organizer & Chair.
 3. *Nicotine reinforcement & dependence: Neuroadaptations in “stop” & “go” signals*. IBNS meeting in Dublin, Ireland, 2013. Role: Organizer & Chair.
 4. *Brain reward and stress systems in excessive alcohol drinking*. Alcoholism & Stress Meeting in Volterra, Italy, 2014. Role: Organizer & Chair.
 5. *Chronic alcohol effects on brain reward, stress & cognition systems: Mouse to monkey to man*. ISBRA meeting in Berlin, Germany, 2016. Role: Organizer & Chair.
 6. *Chronic alcohol induces plasticity in striatal and limbic circuits*. International Society on Biomedical Research on Alcohol (ISBRA), Kyoto, Japan, 2018. Organizer & Chair.

Scientific Presentations:

National:

1. *Neuropeptide Y reduces oral ethanol intake in alcohol-preferring (P) rats following a period of imposed ethanol abstinence*. Presented at RSA meeting in Fort Lauderdale, FL, 2003.
2. *The effects of neuropeptide Y (NPY) in the paraventricular nucleus of the hypothalamus (PVN) on ethanol drinking in high- (HAD1) and low-alcohol-drinking (LAD1) rats*. Presented at RSA meeting in Vancouver, Canada, 2004.
3. *Dose-dependent effects of neuropeptide Y (NPY) on ethanol intake in alcohol-preferring (P) rats following multiple periods of imposed ethanol abstinence*. Presented at RSA meeting in Vancouver, Canada, 2004.
4. *Suppression of ethanol intake by neuropeptide Y (NPY) in Wistar rats depends on intermittence of prior ethanol exposure*. Presented at RSA meeting in Baltimore, Maryland, 2006.
5. *Behavioral and pharmacological validation of two models of pathological alcohol drinking*. Presented at Winter Conference on Brain Research, Snowbird, Utah, 2008.
6. *Role of neuropeptide Y (NPY) in the transition to alcohol dependence*. Presented at RSA meeting in San Diego, CA, 2009.
7. *An animal model of post-traumatic stress disorder & alcohol-related behaviors*. Presented at NHSN meeting in Miami, FL, 2011.
8. *A new animal model of PTSD and alcohol drinking: Effects of predator stress and conditioned stimuli on operant alcohol self-administration*. Presented at RSA meeting in Atlanta, GA, 2011.
9. *Exposure to traumatic stress in rats differentially affects alcohol drinking and neuronal ERK phosphorylation*. Presented in nanosymposium at SfN meeting in New Orleans, LA, 2012.
10. *Nicotine-dependent rats exhibit increases in alcohol self-administration and altered sensitivity to varenicline*. Presented at CPDD meeting in Palm Springs, CA, 2012.
11. *Nicotine vapor inhalation escalates nicotine self-administration*. Presented in symposium at CPDD meeting in San Diego, CA, 2013.
12. *Traumatic brain injury increases alcohol drinking and promotes neuroinflammation in rats*. Presented at Society of Neuroimmune Pharmacology (SNIP) meeting in New Orleans, LA, 2014.
13. *High traumatic stress reactivity escalates alcohol drinking and recruits CRF in prefrontal-amygdala circuitry*. Presented at RSA meeting in Bellevue, WA, 2014.
14. *Amygdalar CRF mediates stress effects on nociception and alcohol drinking*. Presented in mini-symposium at SfN meeting in Chicago, IL, 2015.
15. *Central Amygdala Regulation of Alcohol Withdrawal Hyperalgesia*. Presented at Gordon Research Conference (GRC) on Amygdala in Easton, MA, 2017.

16. *Amygdala endocannabinoids in alcohol withdrawal and traumatic stress induced escalation of alcohol drinking*. Presented in the NIDA-NIAAA satellite symposium preceding the Society for Neuroscience meeting in Washington, D.C., 2017.
17. *Traumatic Stress Reactivity and Neural Mediators of Alcohol Drinking*. Presented at the Gordon Research Conference (GRC) on Alcohol & the Nervous System in Galveston, TX, 2018.

International:

1. *A convergent pathway in the amygdala for brain stress peptides in alcohol dependence*. Presented at IDARS meeting in Seoul, South Korea, 2009.
2. *Extending the utility of alcohol vapor dependence procedures*. Presented at ISBRA meeting in Paris, France, 2010.
3. *Neuropeptide Y suppresses alcohol drinking by decreasing inhibitory neurotransmission in central amygdala*. Presented at IDARS meeting in Rio de Janeiro, Brazil, 2010.
4. *A new animal model of post-traumatic stress disorder & alcohol dependence*. Presented at Alcoholism & Stress Meeting in Volterra, Italy, 2011.
5. *Alcohol dependence recruits neuropeptide Y (NPY) systems in extended amygdala*. Presented at ISBRA meeting in Sapporo, Japan, 2012.
6. *Neuropeptide Y in the extended amygdala of alcohol-dependent rats*. Presented at the International NPY-PPY-PP Meeting, Montreal, Canada, 2012.
7. *Nicotine vapor escalates nicotine self-administration & alters nAChR profiles*. Presented at IBNS meeting in Dublin, Ireland, 2013.
8. *High traumatic stress reactivity promotes alcohol drinking and recruits cortico-amygdalar circuitry*. Presented at IDARS meeting in Mexico City, Mexico, 2013.
9. *Individual differences in stress-induced behavioral dysregulation mediated by corticotropin-releasing factor (CRF) in central amygdala (CeA)*. Presented at Alcoholism & Stress Meeting in Volterra, Italy, 2014.
10. *Traumatic stress increases nociception & alcohol drinking: A role for corticotropin-releasing factor (CRF) signaling in the central amygdala (CeA)*. Presented at IDARS meeting in Sydney, Australia, 2015.
11. *Central amygdala mediates hyperalgesia associated with traumatic stress & alcohol dependence*. Presented at ISBRA meeting in Berlin, Germany, 2016.
12. *Traumatic stress effects on brain CRFR1 signaling, nociception & alcohol drinking*. Presented at Stress & Alcoholism meeting in Volterra, Italy, 2017.
13. *The central amygdala is a hub for alcohol dependence, stress reactivity & pain*. Presented at the Zardi-Gori scientific meeting titled "Alcohol Use Disorder: from Bench to Bedside" in Milan, Italy, 2017.
14. *The role of brain CRF-CRFR1 signaling in stress-alcohol interactions*. Presented at the Winter Conference on Brain Research in Whistler, Canada, 2018.
15. *Stress alters amygdala signaling & alcohol drinking*. Presented at the Neurobiology of Stress Meeting in Banff, Canada, 2018.
16. *Central amygdala circuits mediate hyperalgesia in alcohol-dependent rats*. Presented at ISBRA meeting in Kyoto, Japan, 2018.

Invited Presentations and Seminars:

Local (not including talks on the LSUHSC campus):

1. *At the intersection of stress & alcohol use disorders*. Invited talk at Tulane University, Neuroscience Department, New Orleans, LA, November 2011.
2. *Stress & stress response affects alcohol-related behavior*. Invited talk at Tulane University, Physiology Department, New Orleans, LA, April 2012.
3. *Traumatic stress reactivity facilitates excessive alcohol drinking and prefrontal cortex-*

amygdala synchronicity. Invited talk at Southeastern Louisiana University, Biology Department, Hammond, LA, November 2012.

National:

1. *Neuropeptide Y: The light side of the dark side of alcoholism*. Invited talk at Indiana University-Purdue University at Indianapolis, Psychology Department, Indianapolis, IN, November 2010.
2. *At the intersection of stress & alcohol use disorders*. Invited talk at National Institute of Alcoholism & Alcohol Abuse, Bethesda, MD, February 2012.
3. *Amygdalar CRF in stress-induced escalation of alcohol drinking & hyperalgesia*. Invited talk in NIAAA-sponsored satellite symposium at Society for Neuroscience 2014 meeting in Washington, D.C., November 2014.
4. *Amygdalar CRF mediates individual differences in stress-induced avoidance and hyperalgesia*. Invited talk at University of North Carolina, Psychology Department, Chapel Hill, NC, November 2015.
5. *Amygdalar CRF mediates individual differences in stress-induced avoidance and hyperalgesia*. Invited talk at University of Texas Medical School, Institute of Molecular Medicine, Houston, TX, May 2016.
6. *Amygdala mediates hyperalgesia associated with stress and alcohol dependence*. Invited talk in 5th Purdue Symposium on Psychological Sciences titled "Emotion Dysregulation: Consequences and Mechanisms," Purdue University, West Lafayette, IN, May 2016.
7. *Amygdalar CRF signaling mediates stress-induced hyperalgesia*. Invited talk at Washington State University, Alcohol and Drug Abuse Research Program, Pullman, WA, September 2016.
8. *CRF signaling mediates stress-induced behavioral dysregulation*. Invited talk at Medical University of South Carolina, Alcohol Research Center, Charleston, SC, October 2016.
9. *Central amygdala mediates alcohol dependence-induced hyperalgesia*. Invited talk at Vanderbilt University, Alcohol Research Center, Nashville, TN, October 2017.
10. *Traumatic stress alters brain CRF signaling & alcohol drinking*. Invited talk at Marquette University, Milwaukee, WI, October 2018.
11. *Central amygdala mediates alcohol dependence-induced hyperalgesia*. Invited talk at Texas A&M University, College Station, TX, October 2018.
12. *Central amygdala is a hub for alcohol dependence*. Invited talk at University of Maryland, Baltimore, MD, March 2019.

International:

1. *Amygdalar CRF mediates individual differences in stress-induced avoidance and hyperalgesia*. Invited talk at University of Calgary, Calgary, Alberta, Canada, June 2016.

Editorial Posts and Activities:

Journal Editorial Appointments:

Frontiers in Addictive Disorders and Behavioral Dyscontrol	2012-
Frontiers in Neuropharmacology	2016-
Neuropharmacology (Editorial Board member)	2016-
F1000 Faculty (member; Neuropharm. & Psychopharm. Section)	2018-

Special Topics Journal Editor:

Editor of "Brain Reward and Stress Systems in Addiction"	2013
Special Topic for <i>Frontiers in Addictive Disorders and Behavioral Dyscontrol</i>	

Issue can be accessed at: <http://journal.frontiersin.org/ResearchTopic/1039>

Reviewer Status (alphabetical):

Addiction Biology, Alcohol, Alcoholism: Clinical & Experimental Research, Behavioural Brain Research, Behavioural Pharmacology, Biological Psychiatry, BMC Neuroscience, Brain Research, British Journal of Pharmacology, Cellular & Molecular Neurobiology, Drug & Alcohol Dependence, European Journal of Neuroscience, European Neuropsychopharmacology, Genes Brain & Behavior, International Journal of Developmental Neuroscience, Journal of Addiction Medicine, Journal of Neuroscience, Neuropeptides, Neuropharmacology, Neuropsychopharmacology, Peptides, Pharmacology Biochemistry & Behavior, Physiology & Behavior, Progress in Neuropsychopharmacology & Biological Psychiatry, Psychoneuroendocrinology, Psychopharmacology, Regulatory Peptides, Toxicology & Applied Pharmacology

SERVICE ACTIVITIES

University/Institutional Service:

Departmental committees

Faculty Search Committee, Physiology, Member	2011-13, 2016-
Research Development Work-In-Progress, Physiology, Co-Chair	2012-2013
Post-Doctoral Development Committee, Physiology, Chair	2012-present
Faculty Research Development Program, Physiology, Director	2016-present

LSU School of Medicine (SOM) committees

Judge for Graduate Student Research Day	2011, 2014
Alcohol & Drug Abuse Center of Excellence, steering member	2012-present
Judge for Medical Student Research Day	2014
Alcohol & Drug Abuse Center of Excellence, Associate Director	2015-present
Research Enhancement Fund Grant Review Committee, member	2015-present
Faculty Guidance and Mentoring Committee	2015-present

LSUHSC committees

LSU Strategic Plan, Research & Core Facilities Group, member	2013
LSUHSC-NO Information Technology (IT) Committee, member	2017-present

Professional society committees

Research Society on Alcoholism (RSA)	
Program Committee for RSA Meeting, member	2013
Education Committee, member	2017-present
Board of Directors, member	2017-present
National Hispanic Science Network (NHSN)	
Planning Committee for NHSN Meeting, member	2013, 2015
Planning Committee for NHSN Meeting, co-chair	2012
Early Career Leadership Committee Core Group, member	2012-2014
American College of Neuropsychopharmacology (ACNP)	
Education & Training Committee, ad hoc member	2014
Education & Training Committee, standing member	2015-2017
Publications Committee, standing member	2018-
International Drug Abuse Research Society (IDARS)	
Organizing Committee for IDARS meeting, member	2017

Administrative Responsibilities:

None

Community Service Activities:

LSUHSC Comprehensive Alcohol Research Center (CARC)

2014-2016

Information Dissemination Core; Role: Director (PI)

The goal of this Core is to impact alcohol- and HIV-related knowledge, attitudes and behaviors by educating lay people, practicing and in-training health care providers, and scientists on the neurobiological basis and biomedical consequences of alcohol use and abuse, and the risk factors and biological underpinnings of HIV. These activities include community outreach and education initiatives. My role as Director was to seek out opportunities and coordinate these activities on campus and in the community.

Research Interest Narrative

I am a behavioral neuroscientist, and my research career has focused on examining the neurobiology of addiction, traumatic stress disorders, and pain in animal models, with the ultimate goal of contributing to our understanding of the neurobiology of addiction, as well as potential prevention and treatment strategies for these disorders.

My major research contribution to this point has been to the understanding of the neural changes that mediate the transition from alcohol use to alcohol dependence. In particular, pro-anxiety and anti-anxiety neuropeptide systems in the extended amygdala are recruited during the transition to alcohol dependence, and these systems become critical for mediating alcohol consumption and other alcohol-related outcomes in the alcohol-dependent organism. I have authored many empirical articles and several review articles that collectively seek to improve our understanding of the neuroadaptations that underlie the behavioral pathologies that define the diagnostic criteria for Alcohol Use Disorder (AUD).

My current research program continues to focus on understanding the neurobiology of addictive disorders. I am currently funded by NIAAA and the V.A. The current focus of my lab is to examine neurobiological mechanisms underlying the high rate of co-morbidity of addiction with traumatic stress disorders (e.g., PTSD) and pain. The goal of this work is to identify the neural interface for addiction with traumatic stress disorders and pathological pain, which are frequently co-morbid in civilian and military populations. The potential impact of this work on human health is to identify promising targets and strategies for treating human addicts with co-morbid stress and pain disorders.

I foresee three important areas of expansion for our research program in the future. First, we are incorporating circuit-based approaches into our pre-clinical models with the goal of defining the neurochemistry and neurocircuitry underlying alcohol abuse and pain in individuals living with addiction and traumatic stress disorders. Second, we are expanding our research program to include other drugs of abuse (i.e., nicotine and morphine). Third, we are looking for opportunities to translate our pre-clinical findings into clinical studies.
