

Policy on the Timeliness of Grades

(Approved by the Curriculum Steering Committee, Curriculum Renewal Committee, Clerkship Directors Committee, and by the Dean in 2016)

Students at LSUHSC School of Medicine should be aware of their academic standing, and their performance in required courses and clerkships. Students receive their final grade within 6 weeks of the last day of the course or clerkship. Required clerkships track the time it takes to send grades to students, and the percentage of students who receive their grade more than six weeks after the end of the clerkship. This is reported to the Curriculum Steering Committee on an annual basis.
