OUR MISSION

Usher Syndrome is the world's leading combined deaf/blind disease in the world affecting more than 400,000 worldwide. Only 4,000 people (1%) have been identified and an estimated 25,000 people in the U.S. have Usher Syndrome.

Our mission is to create awareness about Usher Syndrome as well as raise funds to assist research in finding a cure for the vision loss aspect of Usher Syndrome.

OUR STORY

Ush One See, Inc. was started in honor of our son, Hunter Fauchaux, born March 12, 2011 with Usher Syndrome Type 1C, the French/Acadian strand of the gene.

Ush One See has been a 501(c)3 organization since 2016 and has sent over \$150,000 to research for the vision loss aspect of Usher Syndrome.
