Teaching Experience/Responsibilities: (must include some narrative description)

Course/Clerkship/Residency or Fellowship/CME Directorship

Active clinical and didactic instructor to Orthopaedic residents from six (6)
different Orthopaedic Surgery residency programs since becoming faculty

in 2002.

Proctor for the Pediatric Orthopaedic Journal Club held every six weeks – Children's Hospital, New Orleans

Curriculum Development/Implementation

Solely organized the current didactic/formal teaching program for orthopaedic residents while on their pediatric orthopaedic clerkship rotations. The curriculum covers 12 major topics to be covered over a three month period based on the POSNA CORE materials as developed by Dr. Richard Gross

Creation of Enduring Teaching Materials

Created and organized the bound (approx. 50 pages) Pediatric Orthopaedic three-month CORE curriculum in 2002 which is given to each orthopaedic resident upon commencement of their rotation.

Formal Course Responsibilities – Lecture, Lab, Seminar/DxR/Ethics (all schools and all levels, undergraduate, graduate, resident, fellow, post-doctoral instruction; note number of hours/year and number of years involved in aggregate)

I actively participate as moderator, proctor and lecturer in the yearly Basic Concepts Course in Pediatric Orthopaedic Surgery since 2001. This is a regional review course for residents, community surgeons, physical therapists, and other ancillary hospital staff. This is a 2-day event.

I actively participate as lecturer and moderator in the yearly John Roberts Visiting Professorship at Children's Hospital since 2001. This is a resident education meeting spanning a 1½ day period held annually with a nationally known orthopaedic guest professor.

Georgetown University School of Nursing – Laboratory Instructor – Microbiology and Anatomy Labs 9/92-5/94

Departmental/Interdisciplinary Conferences – Morning Report, Grand Rounds, Tumor Board, Departmental Seminar Series, etc

I participate in and co-supervise the daily morning report at Children's Hospital. This conference is held five (5) days per week and is one-hour long. It is an educational event for the current residents, PAs and 3rd and 4th year medical students on their surgery clerkships. It is a systematic discussion and review of ALL emergency room musculoskeletal visits from the preceding evening, discussion of all previous day surgeries, and current day pending surgeries.

I participate in and co-supervise the weekly Pediatric Orthopaedic Grand Rounds. This is an hour long, citywide conference held every Friday morning

where one or more case specific presentations are made with pertinent literature review and orthopaedic faculty discussion.

Actively participate in and co-supervises the monthly Pediatric Spinal Deformity meeting at Children's Hospital where each spine case for the upcoming month is presented and discussed regarding pathology, etiology, assessment, and surgical treatment planned. This case conference is held on a Tuesday evening and runs approximately 1½ to 2 hours.

Post-Doctoral or Post-Residency Fellows Trained:

John Ferris, DO (USA) – 2002-2003
Amit Sharma, MD (India)– 2007 to 2008
Manish Lambat, MD (India)– 2008 to 2009
Vikrant Azad, MD (USA) – 2009 to 2010
Rahul Chaudhari, MD (India) – 2010 to 2011
Anuj Singla, MD (India) – 2011 to 2012
Sushant Ghate – (India) 2012 to 2013
Ahmed Thabet Hagad, MD (Egypt) – 2013 to 2014
Siva Raju, MD (India) – 2014 to 2015
Viral Patel, MD (India) – 2015 to 2016
Pouya Alijanipour, MD (Iran) – 2016 to 2017
Muayad Kadhim, MD (Syria) – 2017-2018
Jaya Prasad Shanmugam (India) 2018 - 2019

Inventions and Patents:

Developed and utilized a novel epiphyseal growth guidance tether system – with provisional patent application submitted.

Developed a novel juvenile bunion/hallux valgus corrective procedure utilizing the "Mini-TightRope®" device. Currently performed on multiple patients.

Developed a novel osteotomy drill guide for long bone osteotomies/corticotomies. Currently in a non-disclosure agreement (NDA) with an orthopaedic implant manufacturer

Created, manufactured, and implanted modified spinal pedicle screw locking devices for a novel (SHILA-type) infantile and juvenile spinal growth system. This allowed the reconfiguration of more traditional spinal growth systems in an effort to reduce or even obviate the need for subsequent "re-lengthening" procedures.

Created and utilized novel instruments for the purpose of stabilizing transitional segments of the spinal column during axial de-rotation maneuvers.

Clinical Service:

In-patient service activities

I have one of the most active pediatric orthopaedic in-patient services in the state of Louisiana due to a broad spectrum of orthopaedic issues managed. My surgical expertise encompasses virtually all aspects of pediatric orthopaedic disorders except sports medicine and malignant musculoskeletal tumors. I have built one of the largest pediatric spinal deformity practices in the state.

Clinic coverage

Two weekly all-day outpatient clinics at Children's Hospital – currently booking over 60 patients per clinic and is the most actively growing practice of all Children's Hospital and LSUHSC pediatric orthopaedic surgeons

I also have additional "satellite" clinics each month in:

Baton Rouge - two full day clinics per month
Metairie – Children's Hospital satellite facility

Call

Currently one in four – Full Call – Children's Hospital – New Orleans.
