WELCOME FROM THE LOA PRESIDENT

*Daniel Gallagher, MD
LOA President*

The Louisiana Orthopaedic Association invites you to the 2015 Annual Meeting which will be held at the Sheraton Hotel, New Orleans. I am pleased to announce that we have booked two outstanding, well known speakers. They are Dr. Thomas Thornhill, who has agreed to present a Hip Lecture and a Knee Lecture and Dr. Brad Edwards, who has agreed to present a lecture about Anatomic Shoulder Reconstruction.

For the first time in many years, the LOA Annual Meeting will feature a job fair. If your practice is looking to bring on residents who have completed their residency training or if you are a resident looking to begin working in a practice setting, please make plans to attend the 2015 LOA Job Fair to be held in conjunction with our Annual Meeting.

We will also be hosting another meeting of our Past Presidents Council. We will send you the details on the Council Meeting once finalized.

The 2015 LOA Annual Meeting promises to be an educational and informative meeting where our members can come together and network, learn and develop new skills over two days.

Register soon for the meeting! It is also important to make your dinner reservations early. Please make sure to secure your hotel accommodations early. February is a very busy time in New Orleans, and the hotel will fill up quickly. LOA has a block of rooms at the Sheraton on Canal Street.

The President's Reception will be held at the Sheraton with the exhibitors from 5:00-6:00 pm on Friday evening. The winner of the Resident Paper Competition will be announced at this time. Dinner is on your own and will be a chance to catch up with your friends at your favorite local restaurant.

We look forward to seeing you at the 2015 LOA Annual Meeting in New Orleans!

OBJECTIVES

The purpose and objective of the LOA meeting are to provide a wide perspective on the broad ranges of orthopaedic knowledge and surgical practice, and increase knowledge in the fundamentals of orthopaedic surgery in basic and clinical science and orthopaedic specialty areas in order to implement more effective strategies for the prevention of musculoskeletal disease. The LOA Annual Meeting also provides an opportunity to strengthen professional relationships.

The learning experience in this activity will promote education in orthopaedic care, support a forum for discussion of current issues in orthopaedics, provide instructions on procedures related to patient management, patient health, physician performance and outcomes, and provide education and information related to the Maintenance of Certification of the American Board of Orthopaedic Surgery. It also will provide education in advocacy issues related to orthopaedics, promote patient safety, and provide an opportunity to discuss and debate in a case based learning environment.

ACCREDITATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Academy of Orthopaedic Surgeons and the Louisiana Orthopaedic Association. The American Academy of Orthopaedic Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

The American Academy of Orthopaedic Surgeons designates this live activity for a maximum of **10.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

KEYNOTE SPEAKERS

T. Bradley Edwards, MD

Dr. Edwards specializes in disorders of the shoulder including those treated with open and arthroscopic surgery. He is very active in clinical and scientific research. Dr. Edwards has published more than 70 scientific articles and 20 book chapters on topics such as rotator cuff problems, shoulder instability, and shoulder replacement. He has coauthored a textbook on shoulder replacement and has more than 100 scientific presentations at national and international meetings to his credit. Additionally, he has twice won the prestigious Neer Award in recognition of outstanding clinical science research in the field of shoulder and elbow surgery.

Thomas S. Thornhill, MD

Dr. Thomas S. Thornhill is the John B. and Buckminster Brown Professor of Orthopedics at Harvard Medical School in Boston, Massachusetts, and Chairman of the Department of Orthopedic Surgery at the Brigham and Women’s Hospital. He graduated Phi Beta Kappa from Williams College and Alpha Omega Alpha from Cornell Medical School. Dr. Thornhill maintains an active practice in total hip, total knee, total shoulder and total elbow arthroplasty. His research interests range from the study of immune reactions in arthritis and following joint arthroplasty to joint design and outcome measures following joint replacement. Along with colleagues Drs. Jeffrey Katz and Elena Losina, he co-founded the BWH Orthopedic and Arthritis Center For Outcomes Research (OrACORE) in 2006.
