#### Equity in Medicine-Highlights of Recent Publications

In keeping with the spirit of the Dr. King Holiday celebrations this week please take note of several articles recently published, which are circulating widely in

national circles of academic medicine. These should serve as resources for reflection as we consider how to move towards a more inclusive enterprise at 'Home' as well as nationally.

## FACULTY DEVELOPMENT

*New video monthly*

January Video: *Thinking Like a Doctor*

How do we teach learners to "Think Like a Doctor"? How do we help learners get from data to diagnosis and treatment? How do we teach Clinical Reasoning Skills? This video (8 minutes) breaks down how experts synthesize information to make medical decisions, and how we can teach our medical students and residents to move past "novice" thinking patterns. Let's start off 2020 with a renewed commitment to excellence in medical education!
