

- **PEDI 420 – Elective Ambulatory Pediatrics – Children’s Hospital Subspecialty Clinics/Children’s ER**
  - o Students will rotate through CHNOLA subspecialty clinics for 2 weeks and through Children’s Hospital ER for 2 weeks. For clinic assignments, students choose and participate in two to four pediatric and surgical subspecialty clinics at Children's Hospital, which attending daily resident conferences. In the ER, students will independently take medical histories, perform physical exams, and present assessments and management plans to faculty. Student are expected to attend weekly ER didactics in lieu of pediatric conferences during this part of the rotation.
