

PEDI 420 – Elective – ICU (PICU, NICU, CICU, combination)

- o Students will participate in the care of critically ill patients in the intensive care setting for 4 weeks. Student can choose PICU, NICU, CICU, or a combination of these for this rotation experience. Students are evaluated by analysis of their performance in patient care, medical documentation, acquisition of technical skills, and their application of clinical and basic science literature pertaining to critical care. Evaluations are performed by faculty.
