

Welcome ... Meet the staff

Paul Hyman, MD

phyman@lsuhsc.edu

Dr. Hyman received an M.D. from the University of Connecticut and completed fellowships at both the Digestive Disease Branch of the NIH and UCLA. Prior to coming to LSU and Children's Hospital in New Orleans he was Chief of Pediatric Gastroenterology at Kansas University Medical Center and at UCLA. Dr. Hyman also served as the Director of the Pediatric Gastrointestinal Motility Center at the Children's Hospital of Orange County. He is an avid researcher with many publications, several of which discuss children with feeding issues. He is interested in the "brain-gut" connection, creating novel approaches to comfort affected children and their families.
