TEACHING EXPERIENCE AND RESPONSIBILITIES

CME Directorship:

Coordinating and scheduling of inter-professional bi-monthly Grand Rounds, including resident case conferences, faculty presentations, and invited speakers. Documentation through LSU IPE such that Department Grand Rounds are certified for CME Category I.

Curriculum Development/Implementation:

LSU School of Medicine Houses Program: One of eight faculty house leaders who developed a curriculum based on small group learning. As a house leader I am responsible for 25 medical students per class level (100 medical students total): implementing Clinical Skills Integration (CSI 101-102) for the twenty-five first year medical students; coordination of clinical and basic sciences faculty in roles as advisors/facilitators for small group ethics; science and practice of medicine courses with first and second year medical students; developing Core Clinical Competencies for third and fourth year medical students; and mentoring into residency placement for third year and fourth year medical students.

Creation of Enduring Teaching Materials:

Resident Lectures

2006-2007

Health Promotion/Disease Prevention: Primary Care in Psychiatry.

An 18 month seminar series for all residents following Hurricane Katrina. Focus of these seminars was to review psychiatrist's ability to offer basic primary care needs for patients in a time of limited resources.

2007-Present

Interviewing and Diagnostic Skills Class Psychiatry Intern Level Course: Co-director

Psychiatry Intern Level Course in which residents are observed performing a Diagnostic Interview of a patient in the presences of classmates. The resident then presents a formal differential diagnosis and initial treatment plan. The remainder of the class discusses the case and gives critical feedback on the interview and differential diagnosis.

Formal Course Responsibilities:

Lectures:

1996-2010 Core Curriculum

Third year Medical Students. Schizophrenia, Antipsychotics, Dementia and Delirium

2001-2010 Small Group Facilitator

The Science and Practice of Medicine. First year Medical Student

2005-2015 Introduction to Psychopathology and Psychopharmacology

Intern level course utilizing American Psychiatric Association textbooks and American Journal of Psychiatry articles to teach basic differential diagnosis, etiology, pathophysiology epidemiology and treatment options for major psychiatric disorders in adults.

2005-present Ethics: An Overview of the AMA Guidelines for Physicians with Case Discussions from Psychiatric Clinical Practice

Upper level resident course utilizing American Psychiatric Association textbook and current literature review followed by each resident presenting a single case integrating the course content into a discussion of the ethical guidelines relevant to the specific case.

2005-Present Cultural Psychiatry: Cultural Formulations in Clinical Practice

Upper level course utilizing American Psychiatric Association textbook and current literature review followed by each resident presenting a single case integrating the course information on cultural competence with one of their own recent patient cases.

2005-2008 & 2014-2015 Psychiatry and Religion: Integrating Values in Diagnoses and Treatment of Patients

Upper level course utilizing American Psychiatric Association textbook and current literature review followed by each resident presenting a single case integrating the course information on integrating values with one of their own recent patient cases.

2010-Present Core Curriculum Third year Medical Students

Team Based Learning Facilitator on topic of Schizophrenia and antipsychotics. This course repeats every six weeks.

Department/Interdisciplinary Teaching Conference:

Case Conference: Bi-annual co-presenter of an original case conference facilitating interns' live patient interview, literature review, and formal discussion of a specific differential diagnosis and treatment plan

Grand Rounds Presentations: LSUHSC Department of Psychiatry

- | | |
|---------|--|
| 7/2006 | Training in the Core Competencies |
| 5/2007 | Pharmacotherapy during Pregnancy and Pre and Post-Partum |
| 5/2008 | Pharmacotherapy across the Female Life-Cycle |
| 11/2012 | Physicians Heal Thyself – How to Assess and Refer to EAP/CAP |
| 3/2015 | Speaking of Marie Laveau, French Kissing and Riding Greyhounds: Cultural Competencies in Clinical practice |

Teaching Awards:

American Psychiatric Association/Irma Bland Resident Teaching Award 2009

Undergraduate, Medical, or Graduate Students Trained:

Primary attending/supervisor for every intern in Psychiatry as each intern rotates through the Adult Inpatient Psychiatry Service. Adult Inpatient Psychiatry Service at UMC consists of the attending, the intern, a psychology post-doctoral intern, two to four 3rd year medical students,

occasionally a 4th year medical student/AI, nursing students, and MSW intern. As the attending, I supervise the members of the entire inpatient team daily.

Two to four PGY-3 residents in Psychiatry each supervised one hour per week for an entire year in out-patient psychopharmacology/psychotherapy as part of the residents' 12 month continuity care clinic.

RESEARCH AND SCHOLARSHIP

Grants and Contracts:

Funded

01/04/2000-06/30/2004 2% \$67,569 Diagnostician

Organon Incorporated, AKZO NOBEL

A Double-Blind, Three-Armed, Fixed-Dose, Placebo Controlled, Dose-Finding Study with Sublingual Org 5222 in Subjects with Acute Phase Schizophrenia (Protocol 041-013). A Long-Term Maintenance of Subjects with Schizophrenia with Org 5222 (Protocol 041-505)

9/1/2000-9/30/2008 Sub-Investigator, not paid out of this grant

Bristol-Myers Squibb Company

CN138-007 – Screening ended on 6/19/01

A Multicenter, Randomized, Double-Blind, Placebo Controlled Study of Two Fixed Doses of Aripiprazole in the Treatment of Hospitalized Patients with Acute Mania (Protocol CN138-007)

*Reapproved (Close out 9/18/01)

11/01/2000-09/30/2008 Sub-Investigator, not paid out of this grant

Janssen Research Foundation

A Nine-week Open-label, Multicenter, Safety Trial of Flexible Dose Ranges of Risperidone in the Treatment of Manic and Mixed Episodes Associated with Bipolar I Disorder, Including Amendment One and Two.

07/01/2001-03/21/2006 Sub-Investigator, not paid out of this grant

Janssen Research Foundation

Open Label Trial Exploring a Switching Regimen from Oral Neuroleptics, other than Risperidone, to Risperidone Depot Microspheres. Including Amendment One (Protocol RIS-USA-259)

09/11/03-04/30/09 7% \$643,822 Diagnostician

National Institute of Mental Health (NIMH)

Molecular Genetics of Schizophrenia LSUHSC was one of ten funded sites to collect approximately 4500 probands with schizophrenia and 4500 controls (collected at ENH) to complete a genome scan and establish a cell bank to provide other investigators with DNA for genetic studies of schizophrenia (Protocol R01-MH067257)

July 2016

Pfizer Incorporated Sub-Investigator, not paid out of this grant
Cognitive Impairment Associated with Schizophrenia, CIAS
IRB approval pending, study set to begin October 2016

Non-Funded

04/01/2016-06/30/2014 Funding pending approval Diagnostician

Janssen Scientific Affairs

Family Intervention in Recent onset Schizophrenia Treatment (FIRST)
A 12-Month Randomized, Open-label Study of Caregiver Psycho-education and Skills Training
in Patients Recently Diagnosed with Schizophrenia, Schizoaffective Disorder, or
Schizophreniform Disorder and Receiving Paliperidone Palmitrate or Oral Antipsychotic
Treatment (Protocol R092670SCH4043; Phase 4)
