## **FACULTY DEVELOPMENT**

*New video monthly*

### **September Video: Giving Feedback**

Feedback is crucial for educating our learners. But it doesn't always come naturally. This video breaks down characteristics of effective feedback. And uses some scenarios to show do's and don'ts in clinical scenarios. With a run time of 12 minutes it's great to watch over lunch, during a break, or in small chunks when you have a minute to invest in education!
