Dr. Agustin Garcia is professor of medicine at LSU Health New Orleans and hematology oncology Section Chief where he holds the Charles W McMullin III and Richard Paul Grace Chair in cancer research.

Dr. Garcia specializes in the management of women’s cancers (particularly breast, cervix and ovarian cancer) and drug development. He has participated in more than 100 clinical trials.

Dr. Garcia is a member of the Breast Cancer Working Group and the Breast Cancer Committee in the Southwest Oncology Group and the Ovarian Cancer Committee of the NRG Oncology Group. He is conducting studies in breast and ovarian cancer evaluating new agents with novel mechanisms of action. He is a member of the American Society of Clinical Oncology, American Society of Breast

Disease, European Society of Medical Oncology, and the NCI Task Force on Cervical Cancer. His work has been published in various journals such as the New England Journal of Medicine, Journal of Clinical Oncology and Gynecologic Oncology. He is a frequent speaker at local, national and international events.

He earned his medical degree from Universidad Anahuac in Mexico City. He completed his internship and residency training in internal medicine at the University of Illinois and a fellowship in medical oncology at the University of Southern California.
