

Participant Updates

We always like to hear from the people who participated in the Lung Cancer Study. News about remission is rewarding to us on a personal level, and we sincerely hope that your family stays healthy and cancer-free. However, for the continued success of our research, it is important that you keep in touch with us and let us know about any newly diagnosed cases of lung, throat or other types of cancers that are found in your family. Working with families in obtaining the most accurate information is a vital part of cancer research. The purpose of this form is for updates or changes in the health status of your family that you think we should know about.

To communicate with us:

- Please fill out and send in this form to let us know of any updates.

Dear Lung Cancer Study Team,

Here is some news about our family:

Sincerely,

Print Full Name: _____

Your Address: _____
