

## Study Directions for Exam

There are two parts, a written and a practical. The test will be on Moodle.

The practical will span the first 36 questions. The written will be 37-100.

The practical will consist of images shown overhead with corresponding questions. Study the review given during the last period and sent to Clark and posted on this site.

For the written, study the final exam posted on the website.

Physics questions not covered will count as extra credit.
