

LSU Surgery welcomes Dr. Jenny Lavie

Jenny Lavie, MD

*Assistant Professor of Clinical Surgery
Division of Plastic & Reconstructive Surgery*

Starting August 14, 2023

We are pleased to announce that Dr. Jenny Lavie will be returning to the LSU Department of Surgery as Assistant Professor of Clinical Surgery within the Division of Plastic & Reconstructive Surgery. Dr. Lavie received her medical degree from the LSU School of Medicine. Here, she also completed her Plastic & Reconstructive Surgery Residency. She went on to complete a fellowship in Pediatric Plastic and Reconstructive Surgery at The Hospital for Sick Children in Toronto, Canada.

"Undergrad, medical school and plastic surgery residency, all at LSU. Jenny represents LSU at its best. She was able to combine two of her passions and has just completed the most prestigious Pediatric Plastic Surgery fellowship at Sick Kids in Toronto," said Division Chief, Dr. Hugo St. Hilaire.

Dr. Lavie's clinical interests include all aspects of pediatric plastic surgery, especially cleft lip and palate, pediatric microsurgery, and brachial plexus reconstruction.

"I consider it a privilege to be able to take care of the children from my hometown of New Orleans and the gulf south and am committed to provide the excellence of care that the LSU community is known for," says Dr. Lavie.

In her free time, Dr. Lavie enjoys traveling and tennis.
